# HYDRA-MAX

**DAILY ELECTROLYTE SUPPORT WITH CREATINE**

Hydra-MAX delivers a true equine-strength dose of electrolytes in a precisely balanced formula designed to replace essential minerals lost through sweat. Backed by science, this advanced formulation supports optimal hydration, neuromuscular function, and thermoregulation during exercise or heat stress. Ideal for use during training, competition, transport, and recovery. Hydra-MAX can be easily mixed with water to encourage drinking and maintain performance. It's especially beneficial for reluctant or poor drinkers at any time of year.

**NET WEIGHT 16 lbs. (7.25 kg)**
