SecureChoice assurance programs

SecureChoiceSM assurance programs are built by Syngenta technical experts to provide proven application recommendations with guaranteed performance. Products marked with the pest icons above are included in assurance programs for pests like mosquitoes, cockroaches, ticks and more.

Visit [SyngentaPMP.com/SecureChoice](https://www.syngentapmp.com/securechoice) for more information.

NOTE: This summary is intended as a simplified guide only. Users should consult the current product label in their state for the most up-to-date use directions.

¹ Includes millipedes, sowbugs, pillbugs, crickets, firebrats, boxelder bugs and other similarly occurring pests.

² Includes moths and/or non-wood-destroying beetles.

³ Included in the SecureChoice Scorpion Assurance Program to help enhance scorpion control by further eliminating their food sources.

⁴ Includes spot treatment of termites, wood-destroying beetles, carpenter bees or carpenter ants.
