

## UNBEETABLE™ BALANCE

ALFALFA + PEA PROTEIN + BEET PULP  
+ FLAX MEAL + TIMOTHY

### ESSENTIAL NUTRITION IN EVERY BITE.

Unbeetable Balance is a premium grain-free ration balancer designed to provide the daily vitamin, mineral, and amino acid requirements your horse needs—without unnecessary calories.

Whether your horse is an easy keeper, on a forage-only diet, or needs targeted nutrition alongside another feed, Balance delivers the nutrients that build topline, support hoof and coat health, and fuel performance.

### WHY CHOOSE UNBEETABLE BALANCE?

- **Grain-Free & Ultra Low Sugar & Starch** – Safe for horses with metabolic concerns, PPID, or grain sensitivities.
- **High-Quality Protein** – Includes pea protein to supply all 10 essential amino acids for optimal muscle and tissue repair.
- **Fortified with KER Micronutrients** – From Kentucky Equine Research, a world leader in equine nutrition science, providing research-proven forms of vitamins and trace minerals for superior absorption and effectiveness.
- **Powered by BeetAdvantage™ Technology** – A unique combination of beet pulp and natural betaine:
  - **Beet Pulp** – A super-fiber for healthy digestion and prebiotic gut support.
  - **Betaine** – A natural compound from beets that aids hydration, supports recovery, and may help with heat stress.

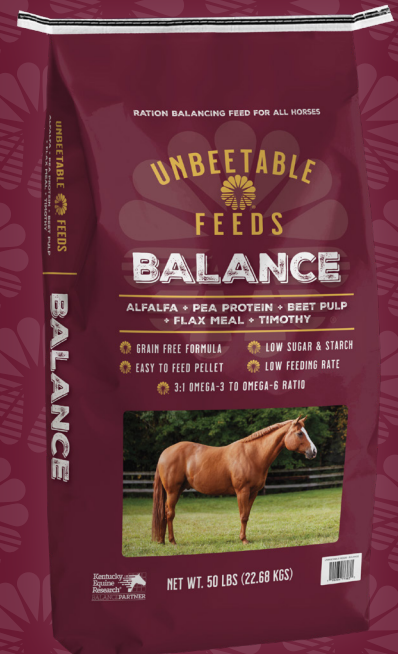

### WHEN TO FEED BALANCE

- For horses on all-forage diets needing vitamin & mineral support
- To complement unfortified feeds including hay pellets or cubes
- For easy keeper horses, ponies, or miniature horses where calories must be controlled
- Alongside other Unbeetable products when more nutrition—but not more energy—is needed
