HOW TO ASSEMBLY THE PET STAIRS STEP BY STEP

3 STEPS
STAIR

STEP 1

Unpack the Compressed Foam

Carefully remove the compressed foam from its packaging.

Important: Allow the foam to fully expand and rebound. This process can take up to 72 hours.

4 STEPS
STAIR

STEP 2

Arrange the Cover

Gently place the main cover over the foam, starting with the top step.

Ensure the cover is aligned properly for a snug fit.

5 STEPS
STAIR

STEP 3

Secure the Zipper

Close the zipper located on the bottom part of the cover.

TIP:

Use two fingers to guide the zipper smoothly, keeping it away from the foam to prevent snagging.

NOTE: The foam is compressed to minimize packaging material and reduce environmental impact. While we understand it can be challenging to wait, we appreciate your patience as the foam regains its full shape. This ensures the best performance and comfort for your pet.

Enjoy your time with your pet!
