

**SOLAR  
FLAME  
TORCH**

 Designed and  
Engineered In  
the USA

**Power On**

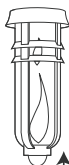

Press the power button to turn the torch on.

If it's bright outside, hold your hand over the solar panel. The torch should light up.

\*The torch will automatically turn on when the sun goes down and turn off when the sun comes up.

The lantern can be pole mounted, or hung. Please see the following pages.

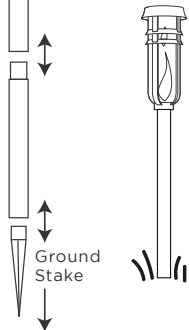

**Option 1  
Pole Mounted**

- 1) Connect the pole with the sticker to the torch.
- 2) Optionally, add 1-2 more poles.
- 3) Push the stake onto the bottom.
- 4) Find a sunny area where the soil is soft and push the stake into the ground.

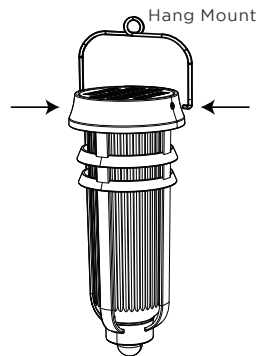

Sticker

Height options:  
1 pole = 22"  
2 poles = 34"  
3 poles = 46"

Ground Stake

**Option 2  
Hang Mounted**

To hang:

- 1) Flex the hang mount and insert it into both holes.
- 2) Find a sunny place to hang the torch (hanger not included).

**Warnings**

-Do not submerge in water.

-Neighbors may think you have an un-attended open fire. Please inform them that FoxFlame is 100% safe!
