Safety Warning

1. Select a stable and firm location to install the feeder to avoid it from shaking or toppling over.
2. Ensure that the installation environment is dry and away from water sources and damp areas.
3. Before adding pet food, check if the food is suitable for feeding to avoid using deteriorated or unsuitable food.
4. Set an appropriate feeding amount and time, and do not overfeed to prevent pet obesity or indigestion.
5. Observe the pet's eating situation regularly and adjust in time if there is any abnormality.
6. Clean the feeder regularly to keep it clean and hygienic and prevent the growth of bacteria.

01

7. Pay attention to keeping the battery fully charged or the power connection normal.
8. These packaging bags may cause suffocation. Keep them away from children and pets.
9. Do not use the feeder when the pet cannot reach the food plate or has any physical disability.
10. Do not put your fingers into the food outlet or let your fingers touch the rotor.
11. Do not immerse the base part in water at any time, otherwise it may damage electronic components, such as the control panel.

FCC Statement:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. The Desired Amount of Kibbles

Note:

The amount of every portion is not adjustable. Pet owners should adjust the number of portions based on their pet's daily meals and appropriate amount per meal. The size of the kibble we used in our lab: 0.4 inch. Here's the data from our experiment.

Cup	Portion	Gram
1/8	3	17
1/4	5	28
1/3	7	39
1/2	10	55
1	20	110

This data is for reference only. You need to test out the right amount for your pet, based on the dry food you used.

Here are the steps:

1. For example, 1/4 cup equals to 5 portions, so 1/8 cup would equal to 3 portions.

$$\frac{1}{4} \text{ cup} = 5 \text{ portions}$$

$$\frac{1}{8} \text{ cup} = 3 \text{ portions}$$

10

2. Set the portion number to 5.
3. Measure the delivered kibbles. If the kibbles are measured as the amount you need, it means this setting is OK.

4. Otherwise, adjust the portion number to let it get close to the desired amount.
