

Do not plug the light string into an outlet until this item is fully assembled and the light strings are properly connected.  
Please read the enclosed important safety instructions and cautions carefully prior to use.  
The light will continuously light up for 6 hours and then turn off for 18 hours. The candle will automatically light up at the same time everyday.  
This light set can be used as a regular string light or as a pathway lights with the included yard stakes.

#### Enclosed Parts

\* 2 Poles, 2 Stakes, 2 Bats

#### Assembly Instructions

1. Pull the ground stakes out of the bottoms of the poles.

2. Attach the poles to the bats by inserting the poles onto the rods on the bottoms of the bats.

3. Carefully insert the ground stakes into the ground where desired. (NOTE: If the ground is hard and packed, moisten the ground with water before inserting the stake to avoid breakage.)

4. Firmly insert the poles with the bats onto the ground stakes.

5. Connect the light set to the adaptor by inserting the male plug of light set into the female socket of the adaptor, secure with screw cap pre-attached.

6. Connect the adaptor on the unit to a Ground Fault Circuit Interrupting (GFCI) outlet ensuring the connected power supply is within the voltage range required.

#### How to connect the sets of bats end to end:

Connect the 2-pin plug on the 2nd set of bats to the end connector on the 1st set of bats, then secure with the cap pre-attached.

#### Trouble Shooting

##### If no lights light up

1. Check your outlet to make sure you have power.
2. Check your extension cord to make sure it has power.
3. Check the product is connected to the adaptor and make sure the connector is fully inserted into the adaptor and tight.

For Decoration Only.  
Not a Toy.  
Not intended for children.

## **IMPORTANT SAFETY INSTRUCTIONS**

When using electrical products, basic precautions should always be practiced including the following:

1. READ AND FOLLOW ALL SAFETY INSTRUCTIONS.
2. Read and follow all instructions that are on the product or provided with the product.
3. For a cord-connected or direct plug-in power unit, do not use an extension cord.
4. Reference the National Electrical Code, ANSI/NFPA 70, specifically for the installation of wiring and clearances from power and lighting conductors.
5. Installation work and electrical wiring must be done by qualified person(S) in accordance with all applicable codes and standards, including fire-rated construction.
6. For a cord-connected or direct plug-in power unit, do not install or use within 10 feet of a pool.
7. For a cord-connected or direct plug-in unit, do not use in a bathroom.
8. For a direct plug-in or cord-connected power unit:

**WARNING:** Risk of Electric shock, when used outdoors, install only to a covered class A GFCI protected receptacle that is weatherproof with the power unit connected to the receptacle. If one is not provided, contact a qualified electrician for proper installation. Ensure that the power unit and cord do not interfere with completely closing the receptacle cover.

9. For a permanently connected power unit:

**WARNING:** Risk of Electric shock, when used outdoors, install only on a circuit protected by a class A GFCI.

10. **WARNING:** Risk of Fire, installation involves special wiring methods to run wiring through a building structure, consult a qualified electrician.

11. For a unit intended to be mounted greater than 0.30m (1 foot) from the ground surface:

**WARNING:** Risk of Electric shock, Mount the unit at a height greater than 1 foot from the ground surface.

12. This power unit is intended to be correctly orientated in a vertical or floor mount position.

**SAVE THESE INSTRUCTIONS** - This manual contains important safety and operating instructions for power units.

### **CAUTION :**

Change or Modifications not expressly approved by the party responsible for compliance could void user's authority to operate the equipment.

**NOTE:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.
