

Congratulations! You have just purchased a DieHard® Wet Dry Vac. Model and serial number may be found on your wet dry vac. You should record both model and serial numbers and keep them in a safe place for future use.

The Owner's Manual can be found online at [www.diehardwetdryvac.com/product-support](http://www.diehardwetdryvac.com/product-support) or by scanning the QR Code below.

Please read the manual carefully before operating the machine.

### LIMITED WARRANTY

#### LIMITED WARRANTY

Equity Sales and Marketing, Inc., ("ESM") warrants this product against defects in workmanship or material for a period of 5 years from the date of purchase for residential, non-commercial use. This is the Limited Warranty against manufacturing defects. This warranty is valid only in the United States. For California residents, this warranty commences on the delivery date of product to the consumer, instead of the date of purchase.

**THIS WARRANTY SHALL NOT APPLY** to any products or parts thereof which have been damaged by acts of nature, accidents, negligence, commercial use, tampering, misuse or abuse, or which have been altered or modified (including removal of the serial number) or repaired by an unauthorized person or service center. Misuse includes, among other things, connection to improper voltage supply. Further, this warranty does not cover cosmetic damage to the product.

**THIS WARRANTY SHALL NOT APPLY** to brushes, wheels, casters, hoses, or accessories since their life depends upon the amount of use.

**THIS WARRANTY SHALL NOT APPLY** to a product used to pick up dust and dry materials without a filter in place.

**THIS WARRANTY SHALL NOT APPLY** to a product used to pick up liquids with a filter in place.

**THIS WARRANTY SHALL NOT APPLY** to a product used to blow sawdust and other debris without a filter in place.

**THIS WARRANTY SHALL NOT APPLY** to a product used in a manner contrary to any of the sections of the Owner's Manual (including the Warnings in the Owner's Manual and on reverse side of this page).

**FOR REPAIR OR REPLACEMENT** the inoperative machine must be delivered with shipping and delivery charges prepaid together with the receipt, bill of sale, or receipted invoice which is evidence of the purchase date (or delivery date for California residents) to place of purchase. ESM will either repair or replace, at its selection, all defective machines during the warranty period.

This limited warranty is the sole and exclusive warranty for the ESM product. No employee, agent, dealer, or other person is authorized to alter this warranty or make other warranty on behalf of ESM.

---

REPAIR OR REPLACEMENT AS PROVIDED UNDER THIS WARRANTY IS THE EXCLUSIVE REMEDY TO THE CONSUMER. ESM SHALL NOT BE LIABLE FOR ANY DIRECT, INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES FOR BREACH OF ANY EXPRESS OR IMPLIED WARRANTY ON THIS PRODUCT, EXCEPT TO THE EXTENT PROHIBITED BY APPLICABLE LAW, ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE IS LIMITED IN DURATION TO THE DURATION OF THIS WARRANTY. ESM'S LIABILITY UNDER NO CIRCUMSTANCES WILL EXCEED THE CONTRACT PRICE FOR THE PRODUCT OR PARTS FOR WHICH LIABILITY IS CLAIMED.

---

The foregoing obligations are in lieu of all other obligations and liabilities including negligence and state ESM's entire exclusive liability and the purchaser's exclusive remedy. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state. Some states do not allow the exclusion or limitation of incidental or consequential damages, or allow limitations on how long an implied warranty lasts, so the above limitations or exclusions do not apply to you.

### WARNINGS

#### **To reduce the risk of fire, electric shock, or injury:**

- Use product only as described in the Owner's Manual, use only manufacturer's recommended attachments.
- If wet dry vac is not working as it should, or if it has been dropped, damaged, or submerged into water, return it to place of purchase.
- Do not use with a damaged cord or plug. If the line cord is damaged it must be replaced by the manufacturer.
- Use only extension cords that are rated for outdoor use. Extension cords in poor condition or too small in wire size can pose fire and shock hazards. To reduce the risk of these hazards, be sure the cord is in good condition and that liquid does not contact the connection. Do not use an extension cord with conductors smaller than 1,3mm<sup>2</sup> [16 AWG].
- Do not pull or carry by cord, use cord as a handle, close a door on a cord or pull cord around sharp edges or corners, do not run wet dry vac over cord. Keep away from heated surfaces.
- Connect to a properly grounded outlet only. See grounding instructions in Owner's Manual.
- Turn off before unplugging.
- Do not unplug by pulling on cord. To unplug, grasp the plug, not the cord.
- Do not unplug or use wet dry vac with wet hands.
- To reduce the risk of eye injury, wear safety eyewear. The operation of any wet dry vac or blower can result in foreign objects being blown into the eyes, which can result in severe eye damage.
- Keep hair, loose clothing, jewelry, fingers, and all parts of body away from openings and moving parts.
- Use extra care when using on any uneven or sloped surface.
- Use special care when emptying heavily loaded tanks.
- To reduce the risk of back injury or falls, do not lift a wet dry vac that is heavy with liquid or debris. Partially empty by scooping debris or draining liquid.
- Use extra care when cleaning stairs.
- Never use wet dry vac as a pump.
- Do not use to vacuum flammable or combustible liquids, such as gasoline or flammable vapors, or use in areas where such items may be present.
- Do not use to vacuum soot, cement, plaster or drywall dust. These are very fine particles that may pass through the filter and affect the performance of the motor or be exhausted back into the air.
- Do not use to vacuum toxic or hazardous materials.
- Do not use to vacuum anything that is burning or smoking; such as cigarettes, matches or hot ashes.
- Do not use this wet dry vac to vacuum lead paint debris because this may disperse fine lead particles into the air.
- Do not leave your wet dry vac plugged in. Unplug from outlet when not in use and before servicing.
- Do not put any object into openings. Do not use with any opening blocked. Keep free of dust, lint, hair and anything that may reduce air flow.
- Do not vacuum solids without filter in place. See Operations section of the Owner's Manual for filter instructions.
- Do not use as a blower without filter in place. See Operations section of the Owner's Manual for filter instructions.
- Remove filter when vacuuming liquids. Do not vacuum liquids with filter in place. See Operations section of the Owner's Manual for filter instructions.
- This wet dry vac is not intended for use by persons (including children) with reduced physical, reduced sensory, or reduced mental capabilities, or lack of experience or knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Do not allow the wet dry vac to be used as a toy, or to run unattended at any time. If used near children, close supervision is necessary.
- Do not store outdoors. To reduce the risk of electric shock, do not expose to rain or allow liquid to enter motor compartment. Store indoors.
-
