

How Do We Make #1 Even Better?

Resealable
Storable
Sustainable
Portable

The liquid formulations of the #1 Brand of Milk Replacers¹ are now even better!
Check out the new Tetra Pak® packaging for KMR™ and Esbilac®!

Reduced Carbon Footprint

Tetra Pak packaging requires significantly less energy to produce than other packaging materials. CO2 emissions for Tetra Pak are almost 88% lower than PET plastic packaging

Renewable Resource

Tetra Pak packaging is primarily paper-based, a renewable material that can be sourced responsibly.

Commitment to Safety

Tetra Pak packaging utilizes an aseptic process that prevents microorganisms from entering the package, ensuring the product meets our high standards of safety.

A Recognized Partner

Tetra Pak was named a 2023 European Climate Leader by the Financial Times in recognition of the company's progress in reducing greenhouse gas emissions.
