

Orbit D410

Dual Channel 4K Front and 2K Rear Dash Cam with Wifi

The Gekogear Orbit D410 is an advanced Wifi enabled dual-channel dashcam designed to capture every detail of your journey with remarkable clarity. Its front camera boasts 4K resolution, ensuring crystal-clear footage of the road ahead. The rear camera, operating at 2K, provides comprehensive coverage of the vehicle's surroundings.

4K Ultra HD Front & 2K Quad HD Rear

The front camera records at 4K Ultra HD resolution and the rear camera records in 2K Quad HD resolution. This will smoothly capture clear video in fast moving scenes.

Connectivity & Convenience

The Orbit D410 enhances convenience with its advanced WiFi direct connectivity, enabling quick and effortless video clip transfers directly to your smartphone.

1.5" Display

This sleek device seamlessly combines a modest form factor with a user-friendly display that avoids any distractions of a big screen.

G-Sensor for Emergency File Saving

The G-sensor is a gravity sensor that will sense any collision, swerve, or hard braking, and automatically lock the current video so it cannot be loop recorded over.

Supports 256Gb, 32GB MicroSD Card

a 32GB microSD card is included in the package, so you'll be set to install in your car and start recording. This device supports up to 256GB of external storage.
