Field & Stream ESTB 1871

RECHARGEABLE
LED FLASHLIGHT

OPERATING INSTRUCTIONS

BEFORE USE: Remove tail cap and remove plastic tab on battery.

BATTERY REPLACEMENT: Install battery by first removing tail cap. Place one 18650 (3.7 volts) rechargeable battery with positive (+) end toward head of flashlight as shown. Make sure the spring is in the tail cap. Replace tail cap by screwing in securely.

BATTERY RECHARGING: Connect USB-C cable into charging port. When fully charged the red indicator light turns green. Allow the flashlight to cool after extended use before charging. Charging a hot lithium-ion battery may reduce battery life. Charge only in a dry, well-ventilated location at normal room temperatures.

PUSH BUTTON SWITCH: Press button switch on side of barrel to cycle through lighting modes: High, Low, and Blood Tracking.

1-YEAR LIMITED WARRANTY: This product is guaranteed to be free of defects in material and workmanship for one year from date of purchase to the original owner. If this product is defective, call our Customer Service at 855-735-9922 for repair or replacement parts or return the product to store from which it was purchased. Guarantee does not include normal wear and tear, batteries or charging cords.

FCC Compliance Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
