Frequently Asked Questions

**Yummy Combs®
60-day clinical
trial:**

What is Yummy Combs®?

Yummy Combs® is a daily nutrient-packed scrubbing and flossing treat designed to support better oral health, nutrition and safety for dogs. Its patented hexagon shape helps clean all sides of the tooth as dogs chew, making it an easy alternative to brushing.

What makes Yummy Combs different from all the other dental treats? Yummy Combs®

is the first and only dental treat on the market to address oral care, nutrition and safety all in one daily treat that dogs go crazy for.

How does Yummy Combs work?

The unique hexagon shape features deep pockets and thin walls that gently scrub and floss teeth to the gum line while dogs chew. The wide design encourages chewing and helps deter gulping.

Is Yummy Combs better than brushing?

For most pet parents, yes. **Yummy Combs®** offers a daily dental routine dogs and pet parents enjoy, leading to higher consistency and better long-term results. Plus, **Yummy Combs®** is proven to remove hardened tartar—something even daily brushing can't do!

Is Yummy Combs® clinically proven?

Yes. In a 60-day clinical study, **Yummy Combs®** was shown to remove hardened tartar by 26% and reduce bad breath by 46%.

Does Yummy Combs® have third-party validation?

Yes. **Yummy Combs®** has earned the Veterinary Oral Health Council (VOHC) Seal of Acceptance for the reduction of tartar, the precursor to periodontal disease.

Is Yummy Combs® safe?

Yes. **Yummy Combs®** was designed with advanced safety in mind. The thin walls begin dissolving within 10 minutes, and the entire treat dissolves within 30 minutes to help reduce blockage risks.

What ingredients are used in Yummy Combs®?

Yummy Combs® are made with all-natural ingredients, containing less than 8% starch with 44% superior protein, delivering all 22 amino acids plus 12 wellness ingredients.

Can Yummy Combs® prevent gum disease?

Yummy Combs® does not prevent or cure gum disease, but it helps control tartar buildup, which is a major contributor to periodontal disease.

How often should dogs eat Yummy Combs®? Yummy Combs®

are designed for daily use—one chew per day as part of a consistent dental care routine.

What sizes are available?

Yummy Combs® are available in X-Small, Small, Medium, Large, and X-Large. Always feed the proper size based on your dog's weight classification & chewing style. Size up for gulpers and aggressive chewers.

Where are Yummy Combs® made?

Yummy Combs® are proudly made in the Heartland of the USA.

Why is daily dental care important for dogs?

Over 80% of dogs age 3 and older show signs of periodontal disease. Daily dental care helps reduce tartar, improve breath, and support overall health.

In Summary:

Yummy Combs® are edible toothbrushes disguised as treats. The honeycomb shape forces a dog to chew in a way that scrubs and flosses the teeth, reaches the gumline, and slows them down just enough to actually clean instead of just inhaling the treat. Plus, it's complete and balanced nutrition dogs go crazy for!
