

# Super Fruit Medley

1.

2.

3.

## Kiwi

### PLANTING INSTRUCTIONS:

1. Dig a hole large enough to encompass the roots without bending or circling.
2. Set the plant in place so the crown (where the roots meet the stem) is 1-2" below the soil surface.
3. Cover with soil to the original soil surface and water thoroughly.

## Goji Berry

### PLANTING INSTRUCTIONS:

1. Dig a hole large enough to encompass the roots without bending or circling.
2. Set the plant in place so the crown (where the roots meet the stem) is 1-2" below the soil surface.
3. Cover with soil to the original soil surface. Water thoroughly and fertilize when planting.

## Fig

### PLANTING INSTRUCTIONS:

1. Dig a hole large enough to encompass the roots without bending or circling.
2. Set the plant in place so the crown (where the roots meet the stem) is 1-2" below the soil surface.
3. Cover with soil to the original soil surface and water thoroughly.
