DECKED

TOOL BOX

THE LAST TOOL BOX YOU'LL EVER BUY.

Built from fiber-reinforced sheet molding compound, the all-new DECKED Tool Box is stronger than steel, lighter than aluminum, weatherproof, secure and will never dent, rust, crack, or fade.

NO-HANDED OPENING
Elbow, shoulder—or a hand. Just press the start button however you like to pop the lid. Gas struts do the rest.

TOOL TRAY
An integrated storage nook keep essential items like commonly-used tools (and snacks) close at hand.

PUT A LID ON IT
Tamper-resistant locks and our H2Zero Gasket keep potential thieves and weather where they belong: outside.

GAS STRUT LINKAGE
Tucked completely out of the way, this patent-pending design opens the lid automatically.

HOOK IT UP
Optional accessory hooks help keep cords, hoses, and hand tools neat, tidy, and accessible.

D-RING CARGO TIE DOWNS
Secure your load to the 300-lb payload lid with the only D-ring in the biz that's actually a "D."

DECKED

TOOLBOX – TECH SPECS

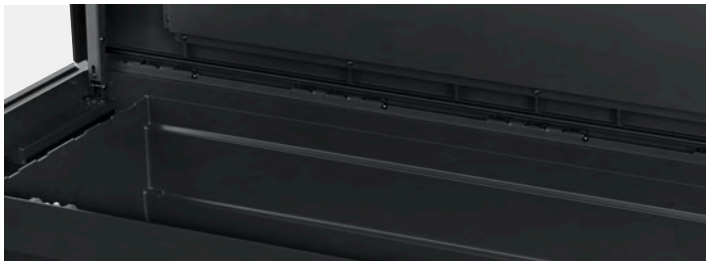
Designed with ruggedness, ease-of-use, and organization in mind, the DECKED Tool Box features molded rails to support the D-co Halfrack and Payloader Cases, and accommodates a wide variety of Milwaukee PACKOUT cases. Details like optional accessory hooks for cords, hoses, or tools and a tool tray for frequently-used items keep your setup dialed.

Weight 99 lbs
Total Available Volume: 10.2 cubic feet (288 Liters)

TAMPER-RESISTANT LOCKING	**DUAL-SIDE BUTTONS**
300 LB PAYLOAD IN TUB	**300 LB PAYLOAD ON LID**

THE LID

Steel reinforcement on the interior of the lid adds theft-resistance and rigidity. Rest easy knowing your equipment is secure and feel free to load the lid with up to 300 lb.



COMPRESSION MOLDING

Sheets of fiber-reinforced resin are compressed under extreme heat and pressure into a mold, delivering an unmatched strength-to-weight ratio.
