

General Installation & Safety Guide

Thank you for choosing **Exact Replacement Parts**. Our components are engineered to meet or exceed original equipment manufacturer specifications, providing a reliable solution for your appliance repairs.

Safety First

Before attempting any repair or part replacement:

- **Disconnect Power:** Always unplug the appliance or trip the circuit breaker.
 - **Turn Off Utilities:** Shut off gas or water lines where applicable.
 - **Protective Gear:** Wear safety gloves and eye protection to prevent injury from sharp edges or debris.
-

Installation Instructions

Because ERP components cover a vast range of makes and models, specific step-by-step instructions are not included with this individual part.

To ensure a successful and safe installation:

1. **Consult the Original Manual:** Refer to your specific appliance's **User Manual** and **Service Guide**.
 2. **Review Schematic Diagrams:** Use the manufacturer's diagrams to identify the correct orientation and mounting points for this part.
 3. **Professional Install:** If you are unsure of the repair process, we strongly recommend contacting a licensed technician.
-

Return Policy Notice

Please be advised of the following policy regarding your purchase:

No Manufacturer Return Policy: Exact Replacement Parts does not offer a direct manufacturer return policy. Once a part has been installed or the original packaging has been opened, it cannot be returned to the manufacturer.

If you believe the part is defective or was damaged during shipping, please contact the **authorized retailer or distributor** from whom you purchased the item to inquire about their specific store return or exchange policies.

Technical Support

If you have any questions, inquiries, or need assistance, please don't hesitate to reach out to our dedicated customer service team (800) 377-1355. Contact us today via phone or email, and we'll be more than happy to provide you with prompt and reliable support for all your needs.
