

## DESCRIPTION

CoopGuard is a plant-based poultry spray formulated with clove oil, cottonseed oil, and citric acid to help protect poultry, birds and their living areas from unwanted pests. Designed for use in poultry environments, it may be used on and around egg-laying birds and does not require removal of eggs when used as directed.

## DIRECTIONS FOR USE

Shake well before use. Spray onto poultry housing areas including nesting boxes, bedding, litter, coop walls, floors, and roosts. If needed, lightly mist feathers while avoiding face, eyes, beak, and vent area.

Apply on clean legs. Reapply every 3–5 days or as needed. It is recommended to apply at night when birds go to roost. For routine maintenance, apply weekly.

**Read entire label before each use. Use only in accordance with labeled instructions.**

This product is exempt from registration under FIFRA Section 25(b) as a minimum risk pesticide.

### Manufactured For:
