HD MIG/Stick — Built for superior protection, long-lasting comfort, and reliable performance, these gloves are made from durable cowhide, cow reverse, and cow split leather. A foam-lined back enhances comfort and heat resistance, while heavy-duty Kevlar® stitching ensures exceptional strength and durability for tough working conditions.

TIG — Designed for precise welding and maximum dexterity, these gloves provide the ultimate fit while offering exceptional durability and protection. Crafted from premium kidskin and cow split leather, they feature heavy-duty Kevlar® stitching for superior strength and longevity in demanding welding environments.

Work — Designed for versatility, these gloves provide reliable protection during light fabrication and material handling tasks. Made from high-quality goatskin with a durable TPR overlay, they offer enhanced durability and impact resistance. Heavy-duty Kevlar® stitching ensures long-lasting strength for demanding work environments.
