TECHKO[®]

Model: SCL-2231

- ▲ Please carefully read this manual before using the product.
- ▲ Keep the manual with you for reference as needed.

PLEASE FULLY CHARGE THE PRODUCT BEFORE USING

1. Please fully charge in direct sunlight for about 4 hours before use for the first time.
2. Charging time may vary depending on the weather, temperature, and seasons.
3. Do not charge the product indoors or any place where direct sunlight can't reach. Otherwise, the product will not charge properly.

OPERATING INSTRUCTIONS

1. The power switch is located on bottom of the unit (see figures below).
2. Slide the switch to the ON position.
3. Even when the unit is switched ON in the daytime, it won't illuminate as the solar panel is equipped with a daylight sensor. It will automatically charge and turn on the LED lights at dusk or when the surroundings turn dark.

- ▲ Charge the unit in a place where the solar panel can be continually exposed to the sun.
- ▲ Avoid placing the unit where shade from buildings or objects which would block the solar panel while charging.
- ▲ As solar panel is equipped with daylight sensor, the product will automatically charge in daytime and light up at dusk or when the surroundings turn dark.
- ▲ The product can be charged in all operating modes.

WARNING & NOTICE

1. Do not look directly at the LED light, or it may damage your eyes.
2. Do not attempt to disassemble or remodel the product. Any changes can be dangerous and will void the warranty.
3. Please keep away from any flammable items, or explosion, property damages, or casual injuries may occur.
4. Please keep the solar panel clean to make sure the product can be properly charged. Frequently clean the solar panel as needed. Avoid scratching on the panel or it may lower charging efficiency.
