

Keyhole Shelf Installation & Care Guide (Hardware Not Included)

What's Included

- Wall shelf panel(s) with keyhole slots on the back.
- Hardware NOT included; user supplies screws/anchors.

Tools You'll Need

- Measuring tape, pencil, level.
- Drill and Phillips screwdriver.
- Stud finder recommended.
- Screws/anchors appropriate for wall type (not included).

Install Your Shelf (Keyhole Mount - Studs Recommended)

- Mark stud locations.
- Level shelf at desired height and mark keyhole centers on wall.
- Pre-drill pilot holes.
- Install screws, leaving heads 1/8–3/16 in out.
- Hang shelf by sliding keyholes over screw heads.
- Adjust screw depth to level.

Install Your Shelf (Keyhole Mount - Drywall Anchors)

- Mark keyhole spacing with a level.
- Drill holes sized for anchors (not included).
- Install anchors flush.
- Install screws, leaving heads exposed.
- Hang and adjust for level.

Care & Cleaning

- Dust with soft cloth.
- Mild soap if needed; dry immediately.
- Avoid harsh chemicals.
- Do not exceed weight rating.
