

**FRESH &
SALT WATER
SOLUTION**

LOG DAM

Specs:

- Fill & drain with water as needed
- Use contained water to block unwanted water
- Leak-proof RF welded seams so it will not burst
- Industrial strength 18oz reinforced PVC, so no tears or punctures with regular use
- Connected fittings to avoid loss
- Hose adapter included
- Lightweight for easy deployment
- Compact, simply roll up flat for storage

- Protect against fresh water, salt water or chemicals
- Reusable year after year
- Flood protection for 3in or 6in high
- Available in 5ft, 10ft, 25ft & 50ft lengths

Ideal for:

- Fresh & salt water flood diversion for driveway, garage doors & doorways
- Erosion control barrier
- Power washing redirection & more
