

Available in Hi-vis Orange & Grime-Hiding Gray

Fits in Wall Mounted Rack for Quick Dispensing

WATER DAMS

Specs:

- Super absorbent dam that swells and gels water to create a barrier
- Compact & lays flat & then grows to 2.5in high in minutes
- Absorbs 1.85 gallons/4ft
- Flexible & can be wrapped around objects
- Durable knit stretches & keeps inner gel contained
- Can be left in place for maintenance or disposed of in trash
- Compact for minimal storage & use with Wall Mount Dispenser for quick deployment

Ideal for:

- Protect entryways from water seepage
- Snake around to contain & control flood water
- Wrap around potential leaky equipment
- Protection against sprinkler flow into elevator shafts
- Concrete cutting water flow control
- Floor cleaning & polishing protection & More!

10x Size increase when exposed to water
