LEAK DIVERTER KIT

Specs:

- Leak Diverter Kit contains everything needed to quickly respond to roof leaks
- Clear tarp allows for easy inspections while reducing the visual impact of the disaster
- Conical design channels water directly to the center, preventing edge overflow
- Redirects ceiling leaks into a 5 gallon hi-vis bucket featuring "Caution Wet Floor" signage on 2 sides
- Reusable design for long-term use
- Heavy-duty, puncture resistant 10oz string reinforced material
- High frequency heat welded leakproof seams
- 25ft transparent, 5/8in diameter hose with 9.8 gal/min flow rate
- 4-6ft adjustable length quick connect corner straps for varying setups
- Adapters included for easy connections
- All items contained in a Grab & Go Hi-Vis 5 gallon bucket

Ideal for:

- Ceiling leaks in office buildings, warehouses, retail spaces, schools & universities, hospitals & healthcare facilities
