Color may vary

Transportation

Use caution when transporting your kayak. Be sure to tie down your kayak, but do not overtighten the straps.

Storage

Be sure to empty the kayak of all water. You should clean the kayak by rinsing with fresh water, especially if the kayak has been used in salt water or becomes muddy. Store the kayak out of direct sunlight.

Usage

Sit in the cockpit area of the kayak, centered in the provided seat area. Using the foot braces, secure your feet so your knees are bent and feel sturdy. Paddle with your arms evenly apart at a medium speed switching back and forth from one side to the other. The paddle should enter the water around your shins and pull out of the water around your hips.

SAFETY INSTRUCTIONS

FAILURE TO FOLLOW THESE WARNINGS MAY RESULT IN SERIOUS INJURY OR PROPERTY DAMAGE AND WILL VOID WARRANTY.

To ensure safety, do not attempt to use this product without following the instructions carefully. Check entire product and inside all packing material for parts and/or additional instruction material. Before using this watercraft, read the instructions and identify parts using the identifier in this document. Proper and complete assembly, use, and supervision are essential to reduce the risk of accident or injury. A high probability of serious injury exists if this system is not assembled, maintained, and/or operated properly.

- Follow any and all warnings and cautions carefully.
- Inspect the hull for damage prior to each use.

Most injuries are caused by misuse and/or not following instructions. Use caution when using this system.

MAINTENANCE

Congratulations on your Lifetime® watercraft purchase. By following the instructions below, your new Lifetime® watercraft should provide you with years of service and enjoyment.

Cleaning and Care

Most stains can be removed using a mild soap and a soft-bristled brush. Abrasive cleaning materials may scratch the plastic and are not recommended. Avoid placing a direct heat source on or near surfaces unless using a heat barrier.

Helpful Tips For Your Kayak

- ALWAYS store your kayak out of direct sunlight when not in use. Your kayak is manufactured with UV-resistant color, but a kayak stored in direct sunlight will begin to color fade over time.
- Your new kayak is molded of high-density polyethylene resin. PERIODIC cleaning with mild soap and water is recommended to keep your kayak looking new.
- NEVER drag any portion of the kayak over asphalt or any rocky, sandy or abrasive surfaces.
- DO NOT stand or sit on your kayak when out of the water. This can damage the hull.
- During regular use, it is normal to find small amounts of water inside the kayak. Carefully remove the drain plug on the side and tilt the kayak to let the water drain out. Secure the drain plug when finished.
- If your kayak has been exposed to hot sunlight, it is recommended to splash water on the hull to cool the hot surface before it comes in contact with your skin.
