Introduction

1

**TOOL-FREE
EASY
ASSEMBLY**

**SOLID
PRACTICAL
COMPACT**

Thank you for choosing the Hatching Time Chicken Coop Stand, a core element of our Modular Coop System designed for comfort, practicality, and strength. The Stand lifts your coop off the ground, creating space for better airflow and helping to keep the floor dry, clean, and safe in all weather. This elevation also reduces moisture and odor buildup while protecting the base from pests and wear over time.

Each unit is made from durable EcoFlex composite panels, resistant to rot, rust, and water damage. The smooth surfaces are easy to wash and maintain, ensuring a clean, hygienic environment for your flock.

Assembly is simple and requires no special tools. Align the labeled panels, lock them securely, and check that the frame rests evenly on a flat surface. Once assembled, the Stand provides a stable foundation for your House Module or can be combined with the Run Module to create a full elevated system.

Reliable, long lasting, and easy to maintain. The Chicken Coop Stand gives strong support for a cleaner, safer, and more comfortable setup.

SAFE FOR YOUR FLOCK
Designed to keep predators out.

Cleaning & Maintenance

14

MODULAR COOP SYSTEM

Keeping Your Coop Clean

- Use mild soap and water to clean EcoFLEX panels.
- Avoid harsh chemicals or power washers.
- Remove bedding and droppings weekly.
- Check hinges and latches monthly for tightness.
- Store indoors or cover during severe weather for extended lifespan.

Safety Notes

15
