Introduction

1

**8-10
CHICKENS**

**SOLID
PRACTICAL
COMPACT**

Thank you for choosing Hatching Time's Chicken Coop Run, an essential part of the Modular Coop System built for flexibility, safety, and comfort. The Run extends your chickens' space, allowing them to move freely while staying protected from predators and harsh weather.

Each panel is made from solid EcoFlex, a durable composite that resists rot, rust, and moisture. The strong mesh walls provide fresh air and sunlight while keeping your flock secure and active. Cleaning is quick and easy, ensuring a healthy and comfortable environment every day.

The Run's modular design connects perfectly with the House and Stand modules, giving you the freedom to expand your setup at any time. Assembly is simple and requires no power tools or special skills. Once in place, the Run provides a safe area for feeding, movement, and play.

Built to last for years of outdoor use, the Chicken Coop Run combines sturdy construction with practical design. It helps create a balanced space where your chickens stay happy, clean, and protected.

SAFE FOR YOUR FLOCK

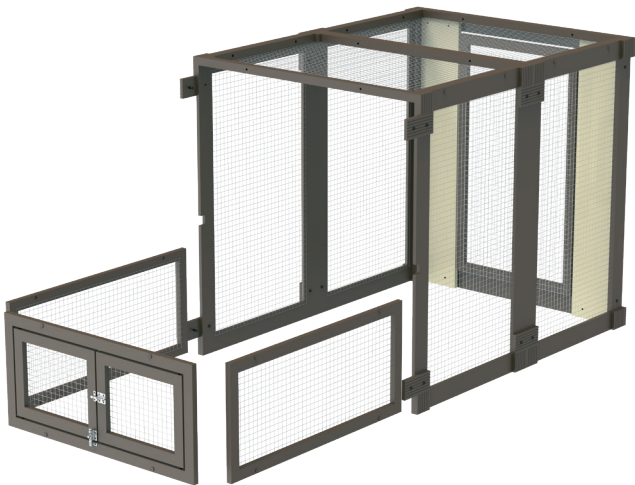

Designed to keep predators out.

MODULAR COOP SYSTEM

I

Follow the steps below to assemble your Chicken Coop House.

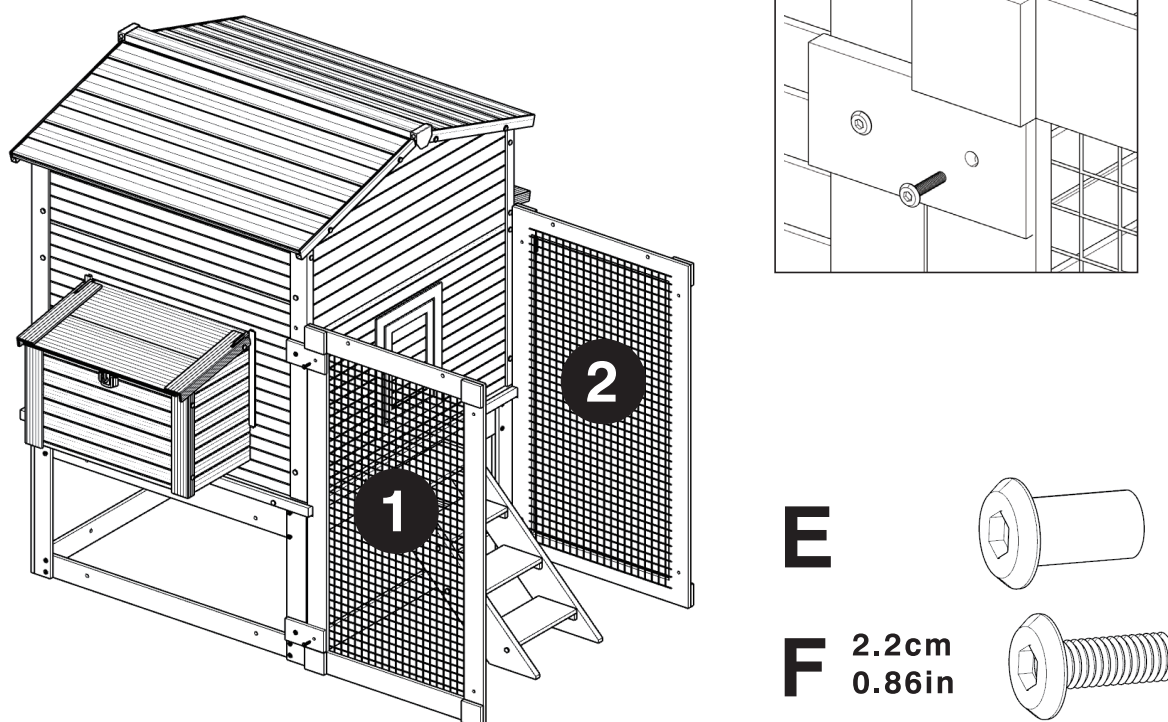

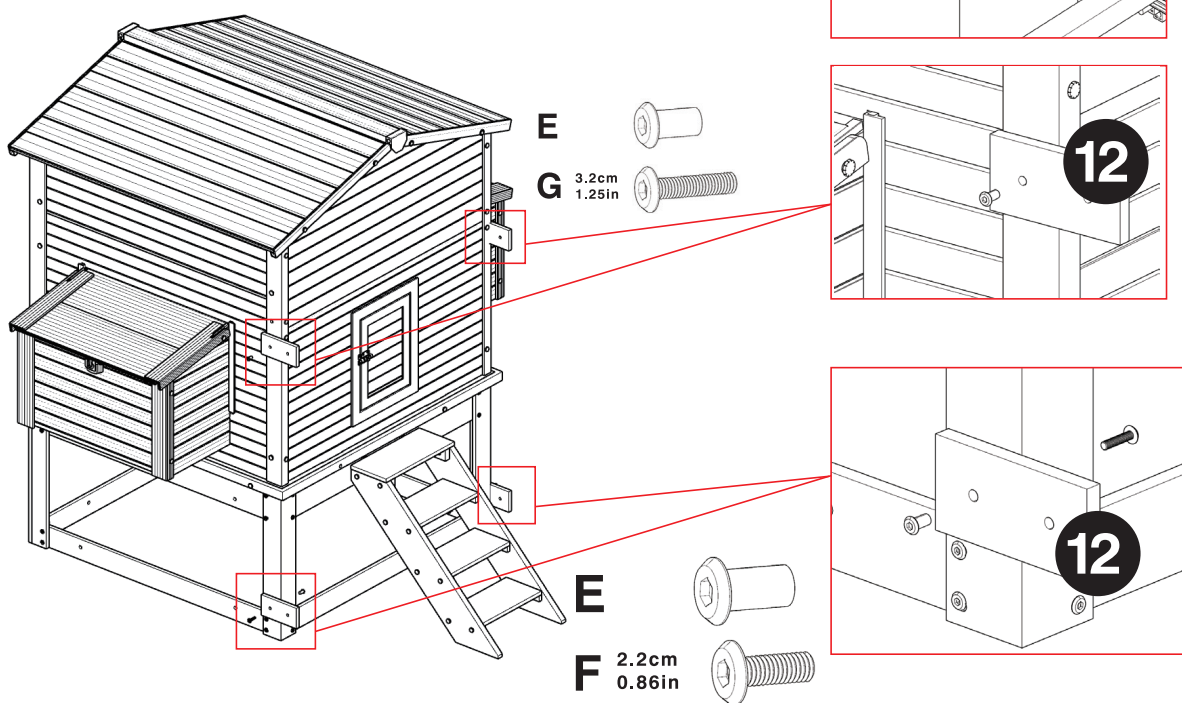

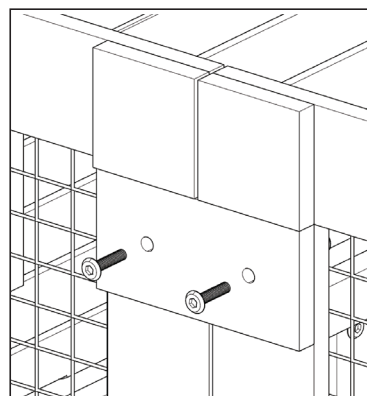

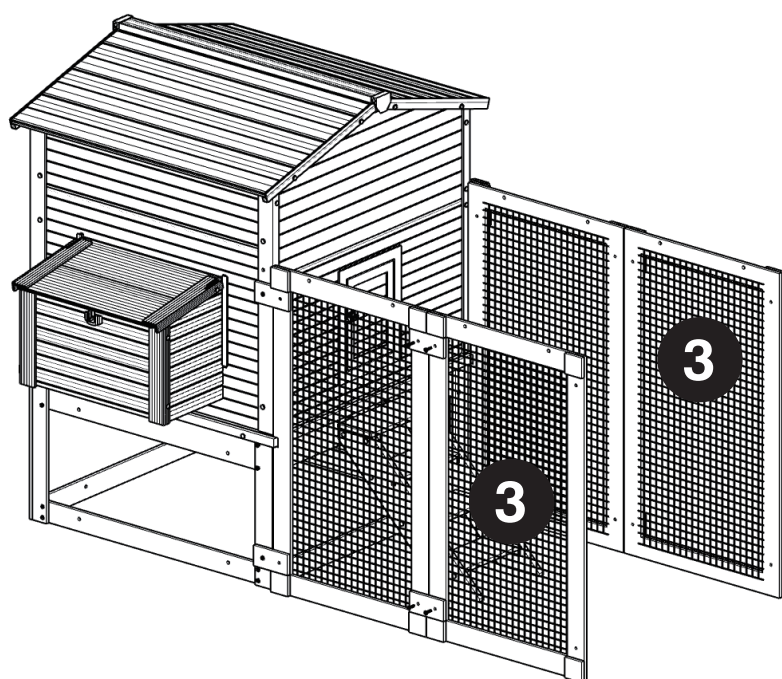

No tools are needed — just align, lock, and secure each panel.
Build on a flat surface for best alignment and check joints as you go.

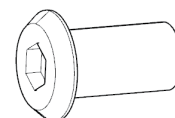

Take out this screw.

The screw passes through from the inside to the outside of the chicken coop.
