

MULTI-USE GARDEN SINK

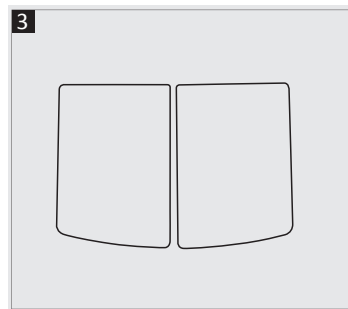

ASSEMBLY INSTRUCTION

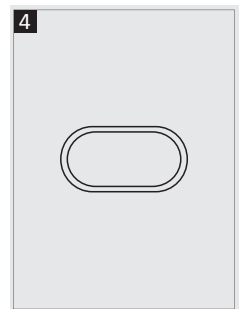

Sink body x1

Storage compartment door x1

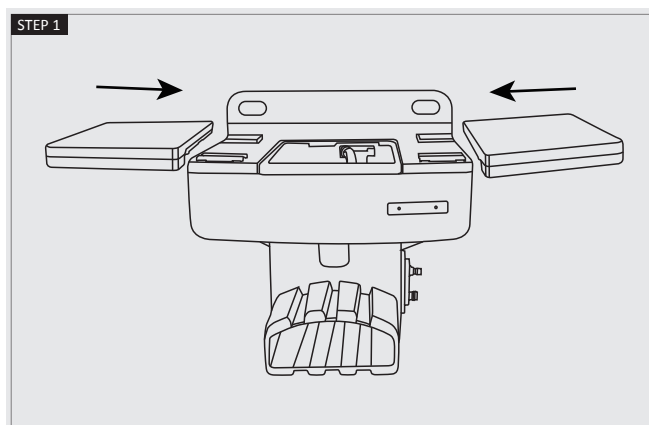

top x 2

Screw cover x2

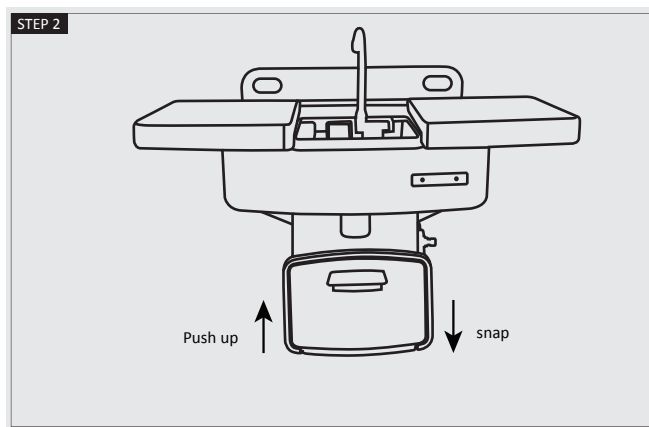

STEP 1

Slide the tops from each side to the center.
Keeping the back edge of the top in the channel.

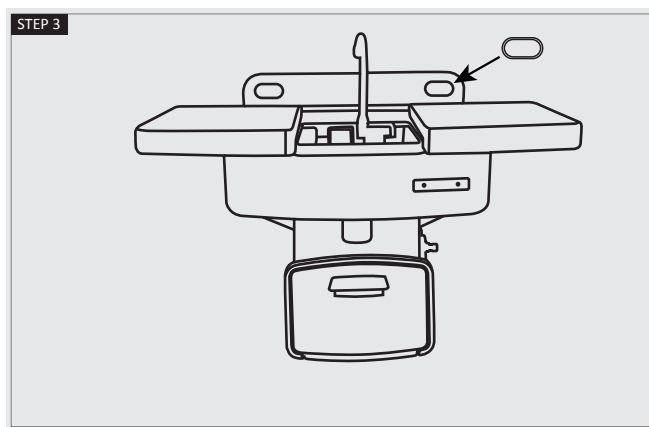

STEP 2

Insert the door under the edge of the opening in the body. Push the frame up. Then snap the bottom tabs past the bottom edge of the opening.

STEP 3

Use Screws to mount the sink to the wall, where you would like to put.
And snap the two screw covers over the mounting hardware.

STEP 4

Garden hose can be connected to the garden sink to supply water to the sink and to drain water from the sink.
