Assembly Instructions

Step 1:

STEP2:

Bolt torque 50Nm, so that
the uprights do not swing
back and forth

Step 3:

STEP4:

Step 5:

STEP6:

Mounting Instructions

Please note the cradles and J-hooks are completely adjustable and can slide on the arms

Step 1

Adjust the distance according to the bicycle tires to center the bicycle.

Step 2

Narrow-wheeled bikes need to be secured in the thick tube with this tape.

15

Folding Status

Secure the sticky tape in the square tube for easy folding so the bike rack doesn't reopen.
