- ✓ **Trusted** by olympic riders
- ✓ **Allowed** national & international classes
- ✓ Developed by **veterinarians**
- ✓ 3D printed in **Germany**

r3vobanD[®]
NOSE

The r3vobanD has convinced me.

The design is ideal for everyday use and shows. It allows the horse to chew more comfortably and accept the bit. Especially for sensitive horses, it provides a more constant connection to the mouth. A real step forward in equestrian sports.
