MOVA Diver A10

Dive Into AI Deep Cleaning

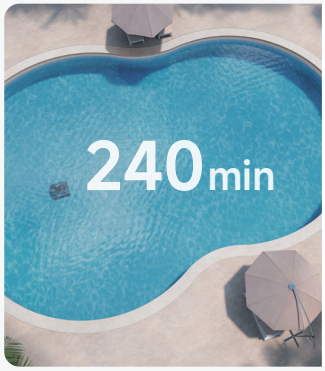

Meet your first AI pool assistant built for exceptional cleaning value!
With a powerful 6,000GPH* suction, Diver A10 sweeps away pool debris with ease. Its long-lasting* performance is perfect for private pools. The ultra-fine filtration system traps debris while reducing suction loss. AI-driven EdgePulse™ and PoolNavi™ technologies eliminate blind spots and optimize cleaning paths, and when combined with 2x waterline scrubbing efficiency, deliver effortless, full-coverage cleaning. Set a schedule once for hassle-free weekly cleaning. 8 cleaning modes cater to various needs, simplifying pool care.

Key Features

6,000GPH Suction Sweeps Away Pool Debris

Driven by three high-efficiency brushless motors and a dual-track drive system, the cleaner circulates water across the entire pool in no time. The spiral brush dislodges and captures fine to large debris from sand and hair to leaves, algae, insects, and dust.

Up to 240min* Runtime for Uninterrupted Cleaning

The 169Wh high-capacity battery delivers robust power for extended runtime. A single charge provides up to 4hrs* of continuous operation, covering areas up to 1,900ft²*. The advanced degradation-resistant battery supports stable performance over long-term use.

EdgePulse™: AI Precision Tracking for Full-Edge Coverage

Diver A10 sets new benchmarks in edge-cleaning precision. With 4 magnetically-coupled guidance wheels and 2 digital Hall-effect sensors, the AI-driven system performs real-time kinematic calibration, ensuring consistent alignment with pool contours.

Dual Scrubbing for Spotless Waterline

The innovative dual waterline cleaning system targets stubborn residue by performing two scrubbing passes to remove oils, algae, and contaminants. Furthermore, its extended coverage reaches 2″* above the waterline—delivering pristine pool edges.

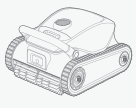

Features

- Unmatched Suction
- 240min Runtime
- Precision Edge Tracking
- Dual Waterline Scrubbing
- Ultra-Fine Filtration
- 8 Cleaning Modes

Specifications

Robot Pool Cleaner Dimensions	16.7″x 15.2″x 9.2″
Power Type	Cordless
Pool Type & Material	All
Cleaning Area	Up to 1,900ft²
Cleaning Coverage	Floor, walls, waterline
Runtime	Up to 4hrs
Suction Power	Max. 6,000GPH
Brush Type	Single brush
Pump Motor Type	Single pump motor
Dual Waterline Scrubbing	Support
Debris Basket Capacity	3.5L
Filter Type	Ultra-fine filter design
App Control	Support

What's in the Box

Robot x1

Charger x1

Retrieval Hook ×1

Fine Filter x1

Ultra-fine Filter (pre-installed) x1

User Manual and Quick Start Guide
