Rover X10

Robotic Pool Cleaner

The 7-in-1 OMNI Pool Cleaning System redefines automated maintenance through groundbreaking technologies. Rover X10 features FloatDrive™ propulsion with quadruple motors generating 10,000GPH suction, while its EdgeDrive™ brush fits tightly for edges and corners. 360° AquaScan™ LDS (Laser Distance Sensor) mapping with PoolNavi™ fusion algorithms enables systematic pool scanning and precision navigation. Multi-sensor arrays provide obstacle avoidance and stain detection. With wireless charging and auto-parking, it establishes a new standard in intelligent pool care.

Key Features

7-in-1 OMNI Clean Masters Every Pool Terrain

The groundbreaking 7-in-1 robotic pool cleaner covers all pool areas, including surfaces, floors, walls, corners, water lines, steps, and shallow zones.

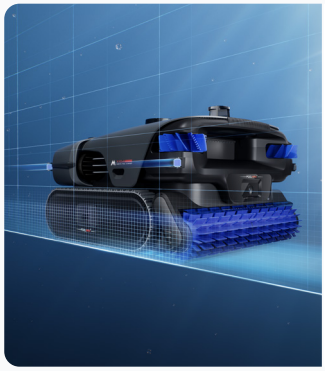

Precision FloatDrive™ Delivers 10,000GPH Suction

Powered by high-efficiency brushless motors with 10,000GPH suction, the system features four jet-drive motors with intelligent differential control for precise vertical thrust.

360° AquaScan™ Maps and Cleans Every Corner

AquaScan™ utilizes underwater LDS scans and maps the pool for 360° in real time with pinpoint precision, ensuring comprehensive coverage.

EdgeDrive™ Brush Adapts to Edges and Corners

EdgeDrive™ features an independently driven brush design that ensures a tight fit to corners and edges for thorough cleaning.

Features

- 4 Jet-Drive Motors
- 6hrs Floor Cleaning
- 5L Ultra-Fine Filtration
- Optimal Path Planning
