SIG SAUER
Infinite Guarantee

Coverage

Firearms, optics and suppressors receive transferable coverage without a time limit, receipt or warranty card. Manufacturing defects in materials, workmanship, electrical, optical and mechanical function qualify for free repair; unrepairable products receive replacement or an equal-value alternative.

Exclusions and conditions

Excluded: intentional damage, misuse, performance-neutral cosmetic damage, loss, theft, unauthorized repairs or modifications, and internal damage from incorrectly installed parts. Misuse includes improper ammunition, obstructions and inadequate maintenance. Non-drop-in aftermarket parts sold by SIG SAUER require installation by a certified SIG SAUER armorer.

Requesting service

Contact SIG SAUER Customer Service for a Return Merchandise Authorization (RMA) before returning the product unloaded, with freight prepaid.

Tritium components

Separate coverage lasts ten years from manufacture. SIG SAUER chooses repair, adjustment or replacement. Misuse, damage, inadequate maintenance, unauthorized alterations and normal cosmetic wear are excluded.

Eligibility and limitations

Commercial-customer restrictions apply; the page specifies authorized in-country purchases for non-US commercial customers. Remedy and liability limitations apply, subject to state law. Consult the source for complete terms.

Summary of the manufacturer's webpage; not the complete warranty.
