NEON SIGN

This neon sign is made with LED bulbs, silicone strips, and ABS material. It is designed without glass, reducing the risk of breakage or hazardous material leakage. The low-voltage power supply helps prevent overheating and burning hazards. If you experience any issues, please feel free to contact us.

FEATURES

1. LED bulb embedded in acrylic
2. Overall cord length: 67 inches
3. Adapter plug suitable for indoor use

HOW TO USE

1.Carefully unpack your neon sign and remove the protective film and bubble wrap before use.

2.Mount the sign securely on a wall.

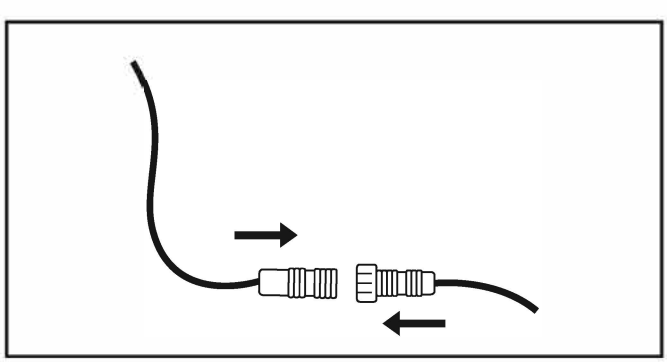

3.Connect the cord to the adapter.

4.Plug the adapter into a working wall outlet or a properly rated extension cord.

5.The neon sign will automatically turn on once plugged in. To turn it off, simply unplug the adapter.
