Auto-Empty Robot Vacuum and Mop

MOVA P10 Pro Ultra Gen 2

Simplicity for You, Performance Within

MOVA P10 Pro Ultra Gen 2 offers efficient cleaning with multiple features. Its suction system handles various debris and cleans carpets. TurboPress™ Technology combines pressure and mopping for stains. The 212°F PTC System assists in cleaning mop pads and reducing bacteria. MaxiReach™ Technology covers edges. Anti-tangle design minimizes hair wrap. The station supports automated maintenance including dust collection and 1-Hour Eco-Dry by Hot Wind for mop drying. With navigation and voice control, it provides convenient cleaning.

Key Features

26,000Pa Powerful Suction

Powered by a high-speed motor, it delivers 26,000Pa* strong suction—easily capturing large debris, deep-cleaning floor gaps and long-pile carpets, all with reduced noise.

212°F PTC System for Washboard

Boils mop pads and cleans the station itself to effectively dissolve tough stains while inhibiting bacterial growth — delivering a deeper, healthier whole-home clean.

1-Hour Eco-Dry by Hot Wind

After cleaning, mop pads are 99%* dried in 1 hour* with warm air. The upgraded motor improves airflow and temperature control to reduce moisture and inhibit bacteria, keeping pads consistently fresh.

TurboPress™ Tech

12N* pressure removes tough stains without damage. Partnered with Smart-Speed Mopping(Up to 260RPM*) that auto-adjusts to different zones*, it quickly breaks down stuck-on dirt for a deeper clean.

Features

- 26,000Pa Powerful Suction
- 212°F PTC System for Washboard
- 1-Hour Eco-Dry by Hot Wind
- TurboPress™ Tech
- MaxiReach™ Tech
- Triple Anti-Tangle Mechanisms

Specifications

Robot Vacuum Dimensions	13.78 x 13.78 x 4.09 inches
Base Station Dimensions	13.39 x 12.48 x 23.23 inches
Maximum Suction	26,000Pa
Mop Pad Lifting Height	0.41 inch
Battery Capacity 5,200mAh	5,200mAh
Dust Bag Capacity	3.2L
Dust Box Capacity	300mL
Mop Pad Downwards Pressure	12N
Mop Rotation	260RPM
Clean/Used Water Tank Capacity	4.5L/4L

What's in the Box

- Robot Vacuum x1
- Base Station x1
- Main Brush x1 (pre-installed)
- Side Brush x1 (pre-installed)
- Washboard Filter x1 (pre-installed)
- Dust Bag x1 (pre-installed)
- Dust Box x1 (pre-installed)
- Dust Box Filter x2 (1 pre-installed)
- Base Station Ramp Extension Plate x1 (install before use)
- Auto Solution Dispenser Module—Single Compartment x1 (pre-installed)
- Mop Pad x2 (pre-installed)
- Mop Pad Holder x2 (install before use)
- User Manual x1
- Floor Cleaner x1

*The product appearance, structure, color, function and other details presented in the promotional materials are for illustration purposes only and may not be an exact representation of the product. Please refer to the actual product for accurate information.
*26,000Pa: Based on internal lab tests under specific conditions. Actual performance may vary with usage environment, methods, and other uncontrollable factors.
*12N, 260RPM: Based on internal lab tests under specific conditions. Actual performance may vary with usage environment, methods, and other uncontrollable factors.
*212°F: Based on tests in our in-house lab. Refers to the surface temperature of the washboard's PTC heating system under ambient room temperature conditions (around 74°F), based on our in-house lab test data. Actual temperature may vary depending on environmental factors.
*99%: Based on internal laboratory testing under specific conditions, where drying efficiency was quantified by measuring the weight reduction of the mop pad after saturated washing and a standardized drying cycle. Actual performance may vary due to usage environment, methods, and other factors.
*1 hour: Based on internal lab tests under specific conditions. Actual performance may vary with usage environment, methods, and other uncontrollable factors.
*Auto-adjusts to different zones: In CleanGenius Mode, the robot automatically triggers high-speed mopping in preset kitchen zones and uses standard cleaning in daily living areas.
