Neakasa **AirStep**
Cat Litter Box Air Purifier

Tired of lingering litter box odors? Meet the Neakasa AirStep, the world's first cat step with a built-in air purifier. More than just a step, it neutralizes odors at the source and catches stray litter to keep your floors clean. The perfect companion for any cat litter box.

Reinventing the Cat Step

The Neakasa AirStep is a smart, all-in-one solution that combines a cat step with an air purifier. It gives your cat a comfortable step, traps stray litter, and eliminates litter box odors, keeping your home and floors fresh and clean.

Powerful Odor Control

Neakasa AirStep traps and neutralizes litter box odors at the source with a high-performance activated carbon filter. Its honeycomb design increases surface area for faster, more thorough purification. Beyond odor control, it also captures hair, dander, and dust, keeping your home air clean and healthy.

Whisper-Quiet Comfort

Operating at just 40 dB, Neakasa AirStep runs silently day and night. Three adjustable fan speeds let you switch between fast odor removal or continuous fresh air all day.

Designed to Fit All

Universal fit for all litter boxes, allowing cats to enter and exit effortlessly while reducing litter scatter.
