Wired Doorbell Plus

Enhanced video quality, advanced security features, and a reimagined design that builds upon years of innovation.

- Retinal 2K with up to 6x Enhanced Zoom
- Low-Light Sight & Adaptive Night Vision
- Two-Way Talk
- Hardwired Power
- Head-to-Toe Video

Super clear. Built better.

Wired Doorbell Plus features a bold redesign on the outside and Retinal 2K on the inside. With Advanced Motion Detection, Low-Light Sight, and other key features, you can be confident that you'll see when something happens at your front door.

Your doorstep never goes dark.

In the near-dark, Wired Doorbell Plus delivers a clear, true-color view - so you can see whoever is at the door, even if it's a dinner delivery. Nearby street lighting is all you need.

See evening arrivals in amazing detail

When there's no light, Wired Doorbell Plus reveals what the human eye can't in vivid black and white detail, so any late night thieves can't take advantage of the dark.

Tech Specs - Wired Doorbell Plus (2nd Gen)

1. Requires a compatible Ring subscription. Sold separately. 24/7 Continuous Recording is limited to 10 devices at one location. Not compatible with select features. Recordings are temporarily stored in the cloud, up to 14 days. This feature is dependent upon network connectivity and other factors.

Frequently Asked Questions

What makes Ring Wired Doorbell Plus (2nd Gen)'s video quality different from other Ring doorbells? Wired Doorbell Plus (2nd Gen) captures video in 2K resolution (1920 x 1920) with a 1:1 aspect ratio that provides true head-to-toe coverage. Its ultra-low-light color vision technology captures clear, vibrant color even in the near-darkness (down to 0.25 lux), ensuring you never miss important details day or night.

What's the recommended internet speed for Wired Doorbell Plus (2nd Gen)? For optimal 2K streaming performance, we recommend an internet upload speed of 10 Mbps. Don't worry if your speed varies - Wired Doorbell Plus (2nd Gen) automatically adjusts video quality to maintain a stable connection.

How does Wired Doorbell Plus (2nd Gen) perform in low-light conditions? Wired Doorbell Plus (2nd Gen) features advanced low-light technology that captures true color video down to 0.25 lux - far darker than previous generations. When it's completely dark, adaptive IR night vision automatically balances the image to ensure you never miss important details.

What power requirements does Wired Doorbell Plus (2nd Gen) need? Wired Doorbell Plus (2nd Gen) requires connection to 16 to 24VAC, 10 to 40VA max, 50/60Hz or 24VDC 12W doorbell transformer power. For optimal performance, we recommend a transformer rated between 30 and 40VA.

How does Wired Doorbell Plus (2nd Gen) work with my existing doorbell chime ? Wired Doorbell Plus (2nd Gen) comes with the Chime Kit Mini, a compact device that seamlessly replaces your existing doorbell chime functionality. The Chime Kit Mini installs above your existing chime box and delivers clear, high-quality chime sounds without requiring Wi-Fi setup. When someone presses your doorbell, the Chime Kit Mini activates within less than a second, providing reliable alerts throughout your home.
