Floodlight Cam

Essential security features meet motion-activated floodlights to deliver widespread coverage across your biggest outdoor spaces.

2K

Retinal 2K with up to 6x Enhanced Zoom

Wide Field of View

Motion-Activated Floodlights

Motion Detection & Alerts

Easy DIY or Pro Install

Ultra-bright lights. Powerful protection

Scare off intruders in a flash and light up all the crucial details. As soon as something goes down, Floodlight Cam (2nd Gen) gets going, switching on floodlights to brighten the scene and sending crisp Retinal 2K video straight to your phone.

Catch people and deliveries up close.

See exactly what's happening in crisp clarity and color with Retinal 2K video. Need to get closer to the action? Just pinch your fingers to bring details into sharp focus with up to 6x Enhanced Zoom.

Light it up. Protect it all.

Send intruders packing with 2000-lumen floodlights that automatically turn on when your camera detects motion - and sound the siren in the Ring app. Perfect for driveways, backyards, or other large outdoor areas.

Frequently Asked Questions

What is 2K video quality? Floodlight Cam (2nd Gen) features Retinal 2K video quality, which means it captures footage at a resolution of 2560 x 1440 pixels.

What is the minimum internet speed required for 2K streaming? A minimum upload speed of 5 Mbps is recommended for optimal performance. Video resolution may vary depending on internet bandwidth.

Will the camera automatically adjust video quality based on internet speed? Yes, the camera features adaptive bit rate streaming technology that automatically adjusts video quality based on your available bandwidth to maintain a stable connection.

Should I get Spotlight Cam (2nd Gen) or Floodlight Cam (2nd Gen) for my home? The best camera for your home depends on where you want to put it. Spotlight Cam (2nd Gen) works great for smaller areas such as side yards, alleys, or patios. Floodlight Cam (2nd Gen) is better for large areas such as the driveway and backyard.

Does Floodlight Cam (2nd Gen) support 24/7 Recording? Yes. 24/7 Recording continuously streams and records video to the cloud, ensuring nothing is missed between motion events. Requires a compatible Ring subscription (sold separately).
