

ring

Wired Doorbell Pro

Ring's iconic doorbell completely reimagined with unmatched 4K clarity.

- Retinal 4K
- Low-Light Sight & Adaptive Night Vision
- 10x Enhanced Zoom
- Head-to-Toe Video
- 3D Motion Detection

Completely reimagined with 4K clarity.

Behind its stunning front profile lies Retinal 4K, delivering ultra-clarity, vibrant color, and crisp detail even in the near-dark. Zoom in up to 10x and see finer details with incredible definition in any light - revealing exactly who and what is at your doorstop.

Your doorstep never goes dark.

When light is scarce, Wired Doorbell Pro delivers a vibrant, full-color view. Nearby street lighting is all you need. With Adaptive Night Vision, the doorbell's technology intelligently reveals in vivid detail what the human eye can't - even in total darkness.

Precise alerts, not interruptions.

The radar-powered precision of 3D Motion Detection delivers super-accurate alerts tailored to your home. Map out zones to know about security events like activity in the driveway, but not the sidewalk.

Tech Specs - Wired Doorbell Pro (3rd Gen)

Size and Color	**Dimensions**	1.95 in x 1.02 in x 5.45 in (4.95 cm x 2.6 cm x 13.835 cm)

Recordings are temporarily stored in the cloud, up to 14 days. This feature is dependent upon network connectivity and other factors.

Frequently Asked Questions

What makes Ring Wired Doorbell Pro (3rd Gen)'s video quality different from other doorbells? Wired Doorbell Pro (3rd Gen) captures video in stunning 4K resolution (2880 x 2880) with a unique 1:1 aspect ratio that provides true head-to-toe coverage. This means you'll see four times more detail than standard 1080p HD, making it easier to identify visitors and monitor packages.

Will my internet connection support 4K streaming on my Wired Doorbell Pro (3rd Gen)? For the best 4K streaming experience, we recommend an internet upload speed of at least 15 Mbps, though 20 Mbps or higher is ideal. Don't worry if your speed varies - your doorbell automatically adjusts video quality to maintain a stable connection.

How does Wired Doorbell Pro (3rd Gen) handle recording at night? Wired Doorbell Pro (3rd Gen) features our advanced Low-Light Sight technology that captures true color video even in near-dark conditions. When it's completely dark, Adaptive Night Vision automatically balances the image to ensure you never miss important details.

How does Wired Doorbell Pro (3rd Gen) work with my existing doorbell chime? Wired Doorbell Pro (3rd Gen) comes with the Chime Kit Mini, a compact device that seamlessly replaces your existing doorbell chime functionality. It installs above your existing chime box and delivers clear, high-quality chime sounds without requiring Wi-Fi setup. When someone presses your doorbell, the Chime Kit Mini activates within less than a second, providing reliable alerts throughout your home.

What advanced features does Wired Doorbell Pro (3rd Gen) include? Wired Doorbell Pro (3rd Gen) comes with premium features including 3D Motion Detection for precise alerts, true color Low-Light Sight and Adaptive Night Vision, and Enhanced Two-Way Talk with Audio+.
