Charge Before Use

Fully charge the camera before use

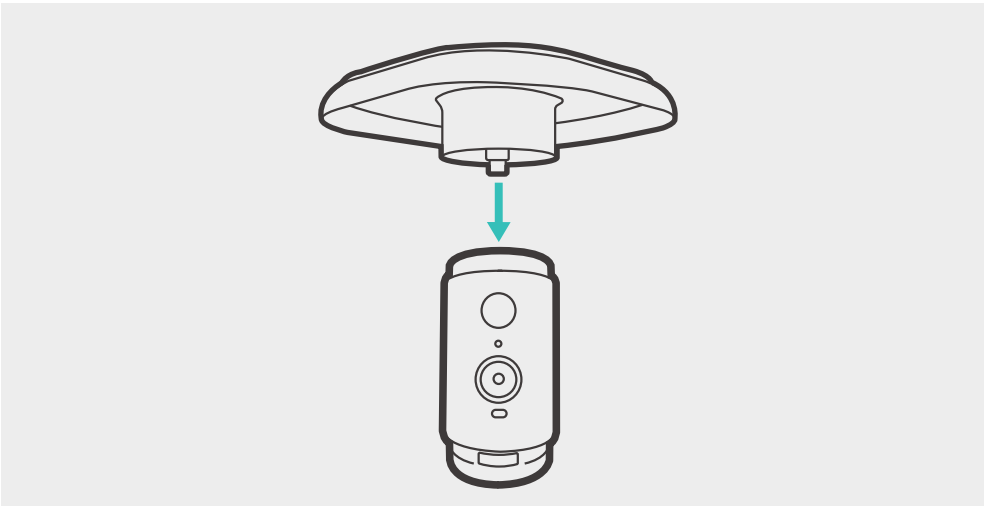

For safety reasons, the camera is not fully charged when packaged. Please use the included charging cable (DC 5V / 1.5A) found in the accessory box to fully charge the camera before first use.

Laden Sie die Kamera vollständig auf, bevor Sie sie verwenden

Aus Sicherheitsgründen ist die Kamera beim Verpacken nicht vollständig aufgeladen. Bitte verwenden Sie das mitgelieferte Ladekabel (DC 5V / 1,5A) aus der Zubehörbox, um die Telekamera vor der ersten Verwendung vollständig aufzuladen.

Caricare completamente la telecamera prima dell'uso

Per motivi di sicurezza, la telecamera non è completamente carica al momento dell'imballaggio. Utilizzare il cavo di ricarica incluso (DC 5V / 1,5A) presente nella scatola degli accessori per caricare completamente la telecamera prima del primo utilizzo.

Continuous Power with Solar Charging

The camera can operate independently with its built-in rechargeable battery, or you can connect it to the included solar panel via the Type-C port at the base for continuous power, ensuring long-term use without needing to recharge manually.

Dauerbetrieb mit Solaraufladung

Die Kamera kann unabhängig mit ihrem integrierten Akku betrieben werden, oder Sie können sie über den Typ-C-Anschluss an der Basis an das mitgelieferte Solarpanel anschließen, um eine kontinuierliche Stromversorgung zu gewährleisten und einen langfristigen Betrieb ohne manuelles Aufladen sicherzustellen.

Alimentazione continua con ricarica solare

La telecamera può funzionare indipendentemente con la sua batteria ricaricabile integrata, oppure è possibile collegarla al pannello solare incluso tramite la porta Type-C alla base per un'alimentazione continua, garantendo un uso a lungo termine senza necessità di ricarica manuale.

Camera Status Light

Status Light **Statuslicht** **Luce di stato**		**Description** **Beschreibung** **Descrizione**
Red Light **Rotes Licht** **Luce rossa**	Steady On Dauerleuchten Fissa	Charging in progress Wird geladen Caricamento in corso
Blue Light **Blaues Licht** **Luce blu**	Steady On Dauerleuchten Fissa	Camera is on and operating normally Kamera ist eingeschaltet und funktioniert normal La telecamera è accesa e funziona normalmente
	Flashing Blinken Lampeggiante	Wi-Fi configuration mode Wi-Fi-Konfigurationsmodus Modalità di configurazione Wi-Fi
No Light **Kein Licht** **Nessuna luce**	If the status light is off, your device is either in sleep mode or powered off. Wenn die Statusanzeige aus ist, befindet sich das Gerät entweder im Energiesparmodus oder ist ausgeschaltet. Se la spia di stato è spenta, il dispositivo è in modalità standby o spento.	

What to Do If There Is No Light

Press the power button once to check the status:
- If the blue light turns on briefly and then goes off: Your device is in Sleep Mode. It is still on and functioning in the background to save power.
- If there is no response: Your device is Powered Off. To turn it on, press and hold the power button for 3 seconds.

Was tun, wenn kein Licht zu sehen ist

Drücken Sie einmal die Einschalttaste, um den Status zu prüfen:
- Wenn das blaue Licht kurz aufleuchtet und dann wieder ausgeht: Ihr Gerät befindet sich im Energiesparmodus. Es ist weiterhin eingeschaltet und funktioniert im Hintergrund, um Energie zu sparen.
- Wenn keine Reaktion erfolgt: Ihr Gerät ist ausgeschaltet. Zum Einschalten halten Sie die Einschalttaste 3 Sekunden lang gedrückt.

Cosa fare se non c'è luce

Premere una volta il pulsante di accensione per verificare lo stato:
- Se la luce blu si accende brevemente e poi si spegne: il dispositivo è in modalità standby. È ancora acceso e funziona in background per risparmiare energia.
- Se non risponde: il dispositivo è spento. Per accenderlo, tenere premuto il pulsante di accensione per 3 secondi.

When charging and operating, both the ambient temperature and camera temperature should be within 14°F to 113°F (-10°C to 45°C). If the camera has been exposed to low temperatures for an extended period, it should be brought back to room temperature before charging.

Beim Laden und Betrieb sollten sowohl die Umgebungstemperatur als auch die Kameratemperatur zwischen -10°C und 45°C (14°F bis 113°F) liegen. Wenn die Kamera über längere Zeit niedrigen Temperaturen ausgesetzt war, bringen Sie sie vor dem Laden auf Raumtemperatur.

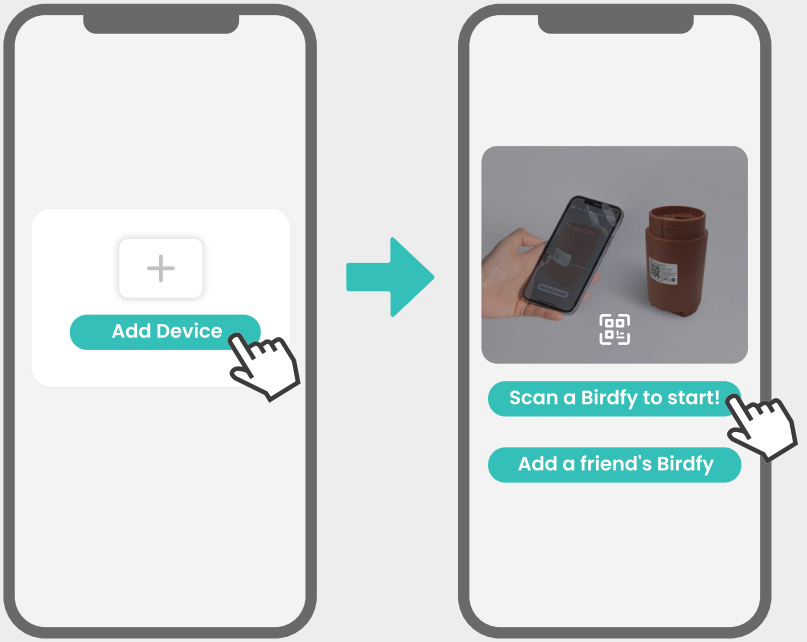

Durante la ricarica e il funzionamento, sia la temperatura ambiente che quella della telecamera devono essere comprese tra -10°C e 45°C (14°F–113°F). Se la telecamera è stata esposta a basse temperature per un lungo periodo, riportarla a temperatura ambiente prima di ricaricarla.

Step 1: Download the Birdfy App

Download on the App Store

GET IT ON Google Play

Step 2: Pair the Camera with the App

*Follow the in-app instructions to set up your Birdfy
*Folge den Anweisungen in der App, um dein Birdfy einzurichten
*Segui le istruzioni nell'app per configurare il tuo Birdfy

Bird Identification

If you have the Birdfy Birdbath Jolly V with Lifetime Free AI, the AI bird identification feature is included and activated automatically, no further action needed.
If you have the Birdfy Birdbath Jolly V with AI by Subscription, you need to subscribe on my.birdfy.com to access this feature.

Vogelerkennung

Wenn Sie den Birdfy Birdbath Jolly V mit lebenslanger kostenloser KI besitzen, ist die KI-Vogelerkennungsfunktion bereits enthalten und wird automatisch aktiviert – keine weiteren Schritte erforderlich.
Wenn Sie den Birdfy Birdbath Jolly V mit KI per Abonnement besitzen, müssen Sie ein Abonnement auf my.birdfy.com abschließen, um diese Funktion zu nutzen.

Riconoscimento degli uccelli

Se possiedi Birdfy Birdbath Jolly V con AI gratuita a vita, la funzione di riconoscimento degli uccelli tramite AI è già inclusa e si attiva automaticamente, senza bisogno di ulteriori azioni.
Se possiedi Birdfy Birdbath Jolly V con AI in abbonamento, devi sottoscrivere un abbonamento su my.birdfy.com per accedere a questa funzione.

Step 3: Assemble the Product

1 **Before starting, please ensure the camera has been paired with the app and is powered on.**

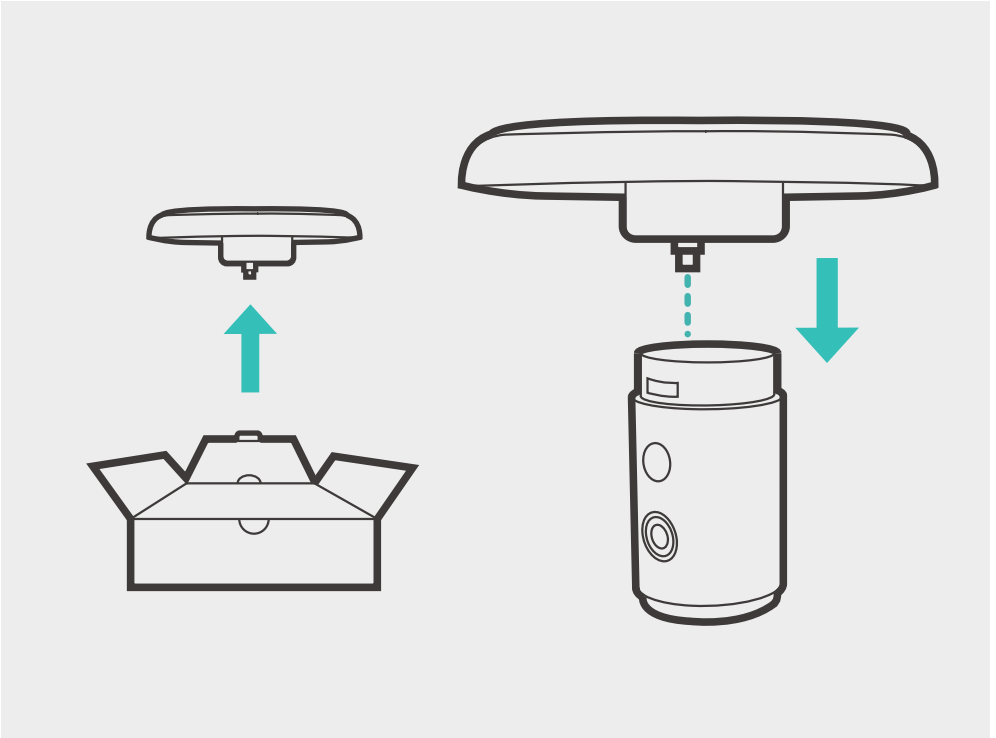

1. Take out the solar panel.
2. Connect the camera to the solar panel.

Bevor Sie beginnen, stellen Sie sicher, dass die Kamera mit der App gekoppelt und eingeschaltet ist.

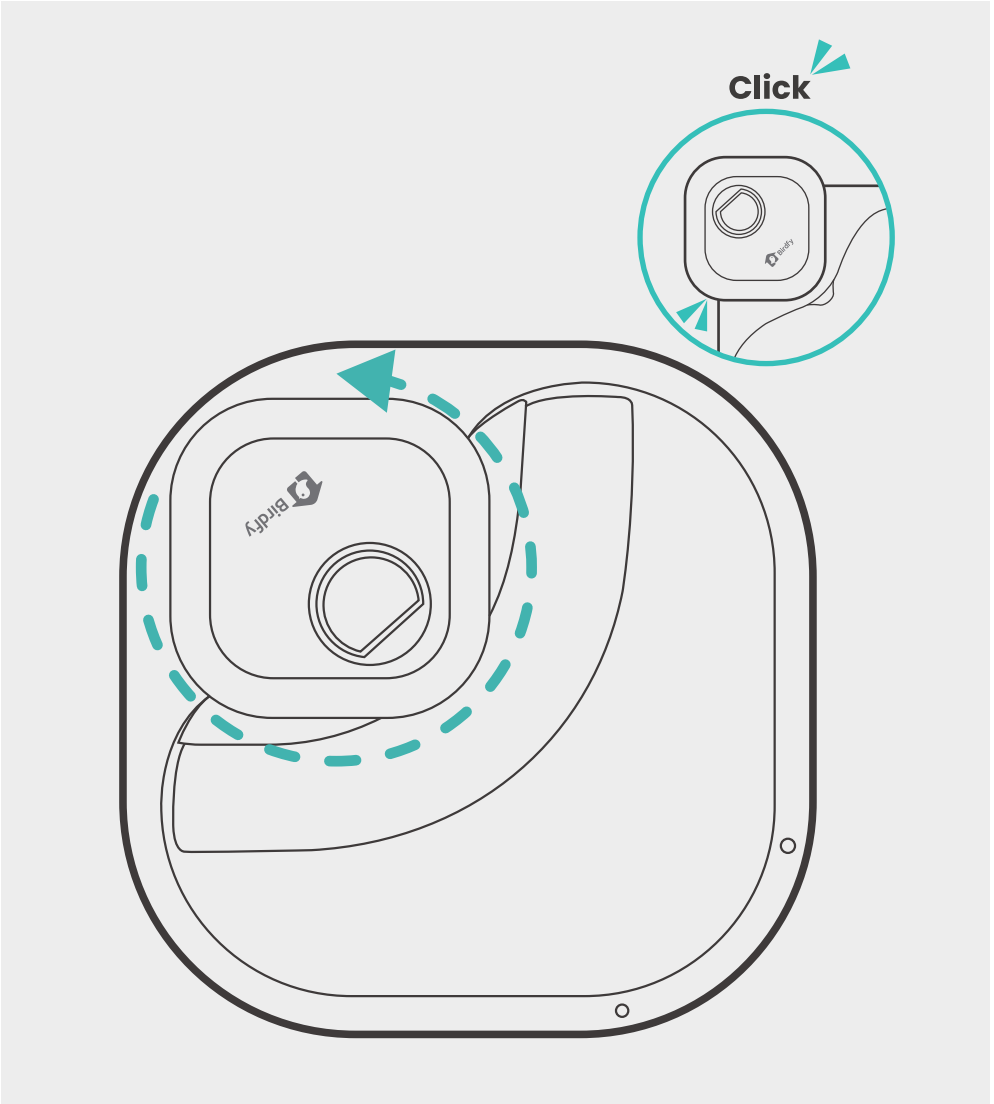

1. Nehmen Sie das Solarpanel heraus.
2. Verbinden Sie die Kamera mit dem Solarpanel.

Prima di iniziare, assicurati che la telecamera sia collegata all'app e accesa.

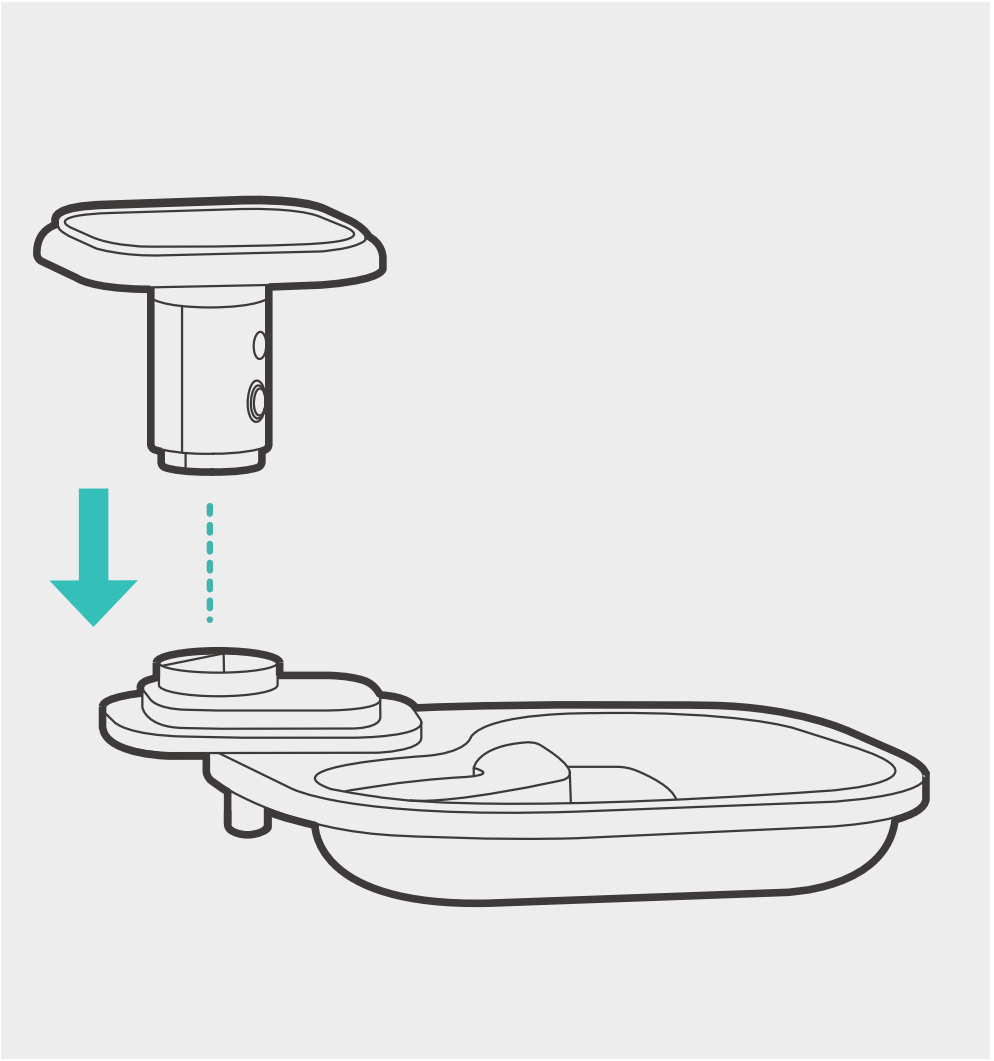

1. Rimuovi il pannello solare.
2. Collega la telecamera al pannello solare.

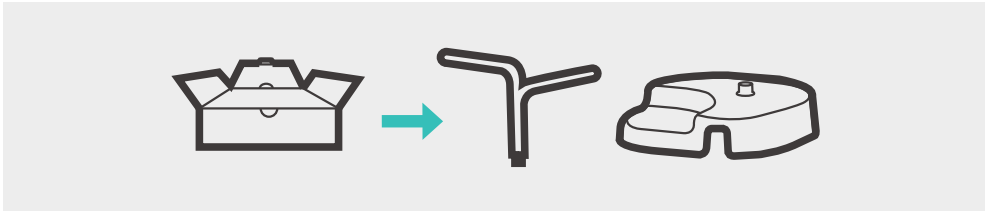

2 Rotate the camera base 180°. A click confirms it is locked in position.
Drehen Sie die Kamerabasis um 180°. Ein Klicken bestätigt, dass sie einrastet.
Ruota la base della telecamera di 180°. Un clic conferma che è bloccata in posizione.

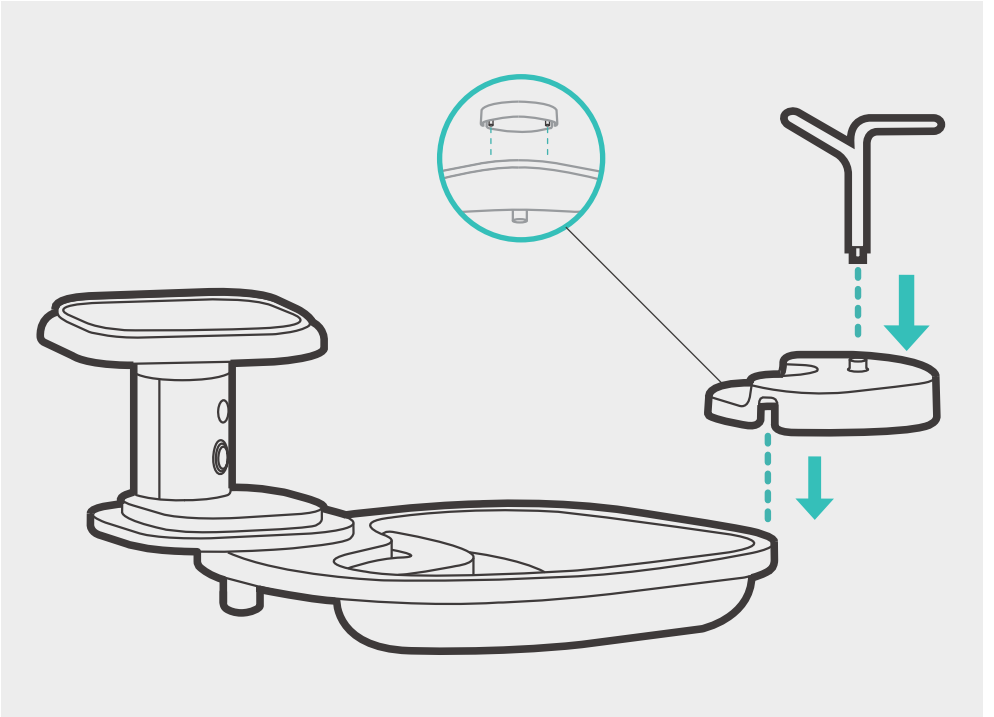

3 Align the camera with the base and push down. A second click will indicate the camera is secure.
Richten Sie die Kamera an der Basis aus und drücken Sie sie nach unten. Ein zweites Klicken zeigt an, dass die Kamera sicher befestigt ist.
Allinea la telecamera con la base e spingila verso il basso. Un secondo clic indicherà che la telecamera è fissata in modo sicuro.

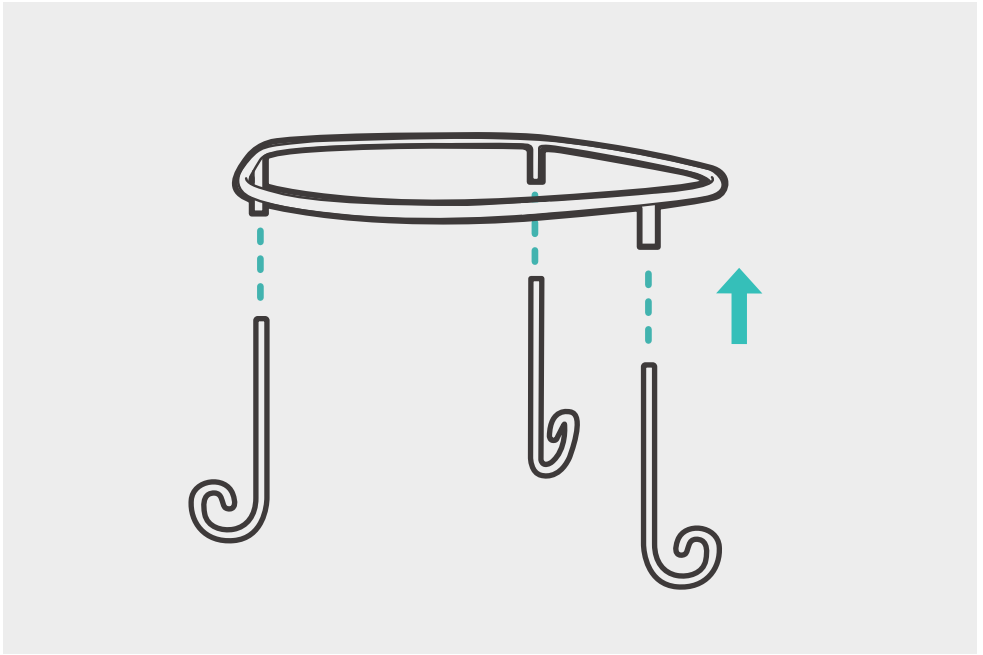

4 Take out the perch platform and perch.
Nehmen Sie die Sitzstangenplattform und die Sitzstange heraus.
Estrarre la piattaforma del posatoio e il posatoio.

5 Attach the perch platform to the basin, then insert the perch into it.
Befestigen Sie die Sitzstangenplattform am Becken und setzen Sie dann die Sitzstange ein.
Fissare la piattaforma del posatoio alla vaschetta, quindi inserire il posatoio.

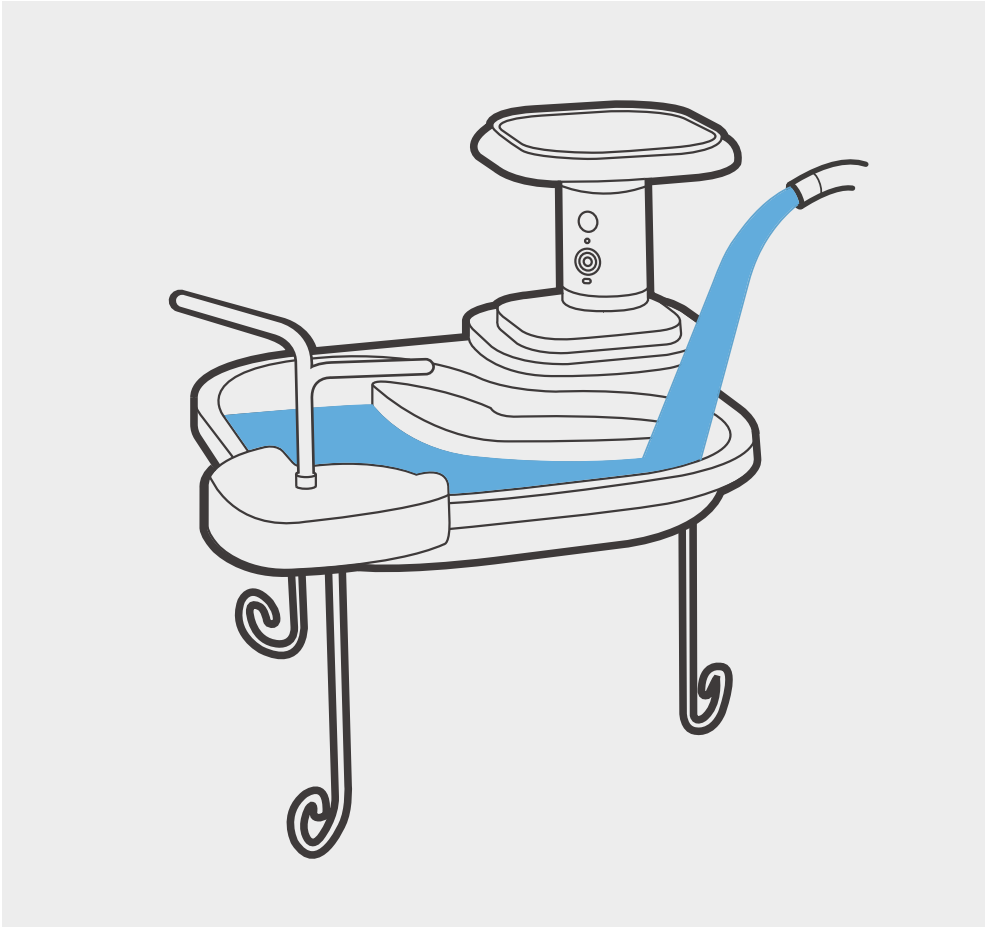

6 Insert the legs into the holes to assemble the birdbath stand.
Stecken Sie die Beine in die Löcher, um den Vogelbad-Ständer zusammenzubauen.
Inserire le gambe nei fori per assemblare il supporto del bagno per uccelli.

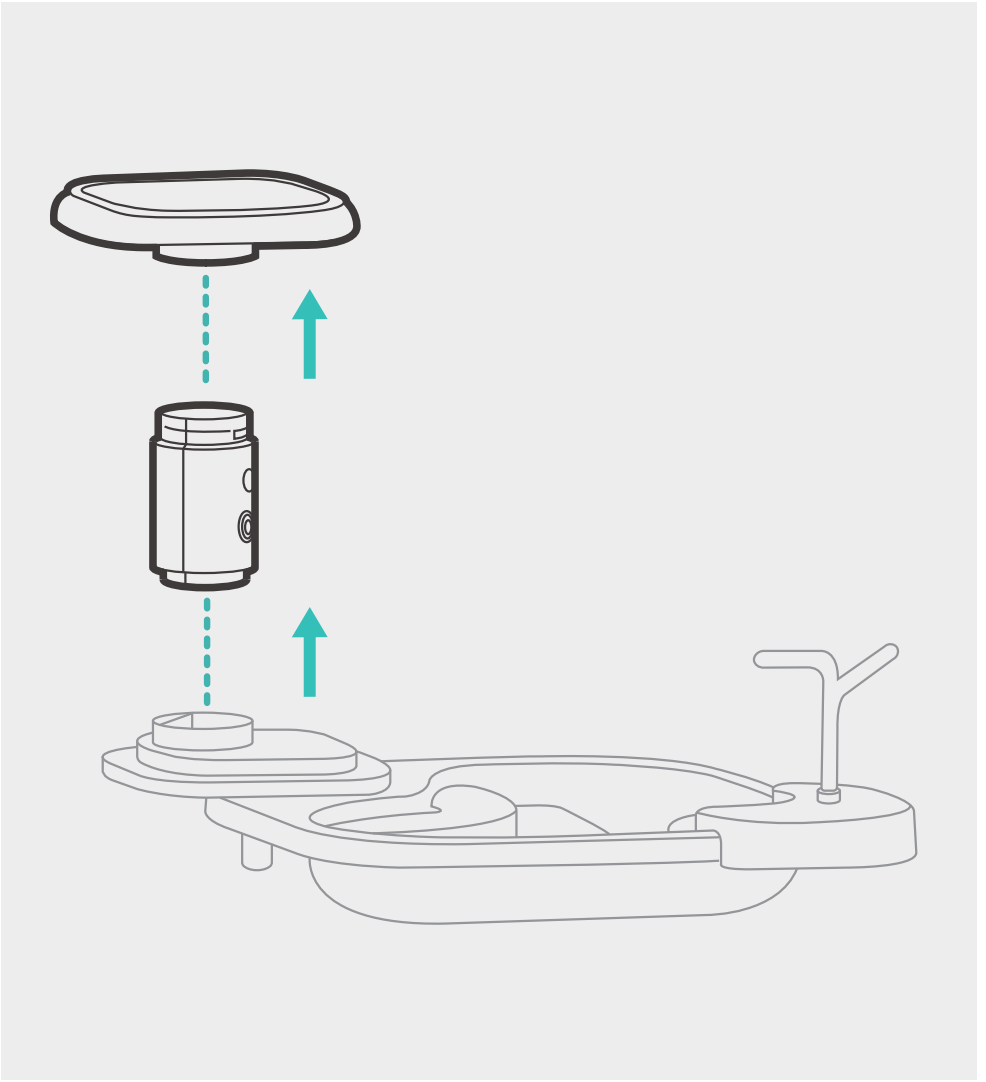

Step 4: Outdoor Installation

Place the basin on the stand and put it on a level surface. Fill it with fresh water to begin use.
Stellen Sie das Becken auf das Gestell und platzieren Sie es auf einer ebenen Fläche. Füllen Sie es mit frischem Wasser, um die Nutzung zu beginnen.
Posizionare la vasca sul supporto su una superficie piana. Riempirla con acqua fresca prima dell'uso.

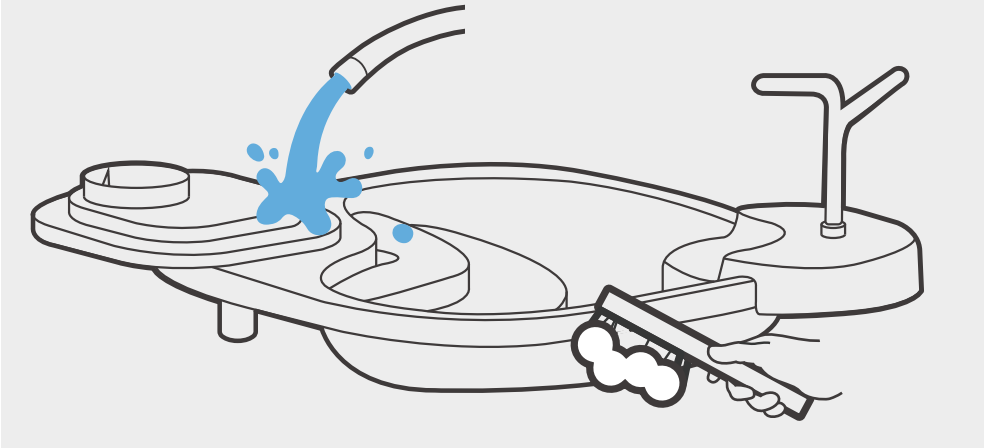

Cleaning

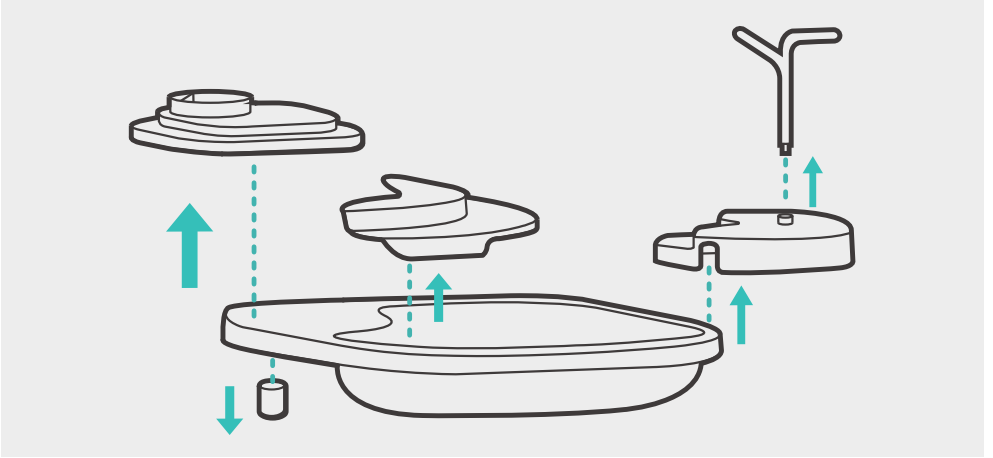

1. Take off the camera and solar panel.
   Nehmen Sie die Kamera und das Solarpanel ab.
   Rimuovere la telecamera e il pannello solare.

2 Clean the basin with a brush and water.
Reinigen Sie das Becken mit einer Bürste und Wasser.
Pulire la vasca con una spazzola e acqua.

3 As needed, disassemble the birdbath's modules for a more detailed clean.
Zerlegen Sie bei Bedarf die Module des Vogelbads für eine gründlichere Reinigung.
Se necessario, smontare i moduli del birdbath per una pulizia più approfondita.

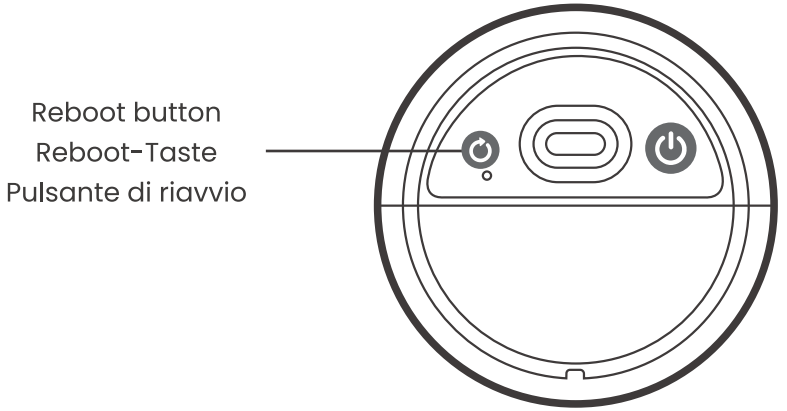

Support

If your Birdfy camera **goes offline or fails to stream,**
try these troubleshooting steps:
1. Ensure the camera is fully charged.
2. Verify your home Wi-Fi connectivity. Try to reconnect the camera to your Wi-Fi network.

Wenn Ihre Birdfy-Kamera **offline geht oder keinen Stream anzeigt,** versuchen Sie folgende Schritte zur Fehlerbehebung:
1. Stellen Sie sicher, dass die Kamera vollständig aufgeladen ist.
2. Überprüfen Sie die WLAN-Verbindung in Ihrem Zuhause. Versuchen Sie, die Kamera erneut mit dem WLAN zu verbinden.

Se la tua telecamera Birdfy **va offline o non riesce a trasmettere,** prova questi passaggi per la risoluzione dei problemi:
1. Assicurati che la telecamera sia completamente carica.
2. Verifica la connessione Wi-Fi domestica. Prova a riconnettere la telecamera alla rete Wi-Fi.

If the issue persists:
1. Disconnect the camera from the solar panel or charger.
2. Press the reboot button once to shut down the camera.
3. Press and hold the power button for 3 seconds to restart it.

Wenn das Problem weiterhin besteht:
1. Trennen Sie die Kamera vom Solarpanel oder Ladegerät.
2. Drücken Sie kurz die Reboot-Taste, um die Kamera auszuschalten.
3. Drücken Sie die Ein-/Aus-Taste und halten Sie sie 3 Sekunden lang gedrückt, um die Kamera neu zu starten.

Se il problema persiste:
1. Scollegare la telecamera dal pannello solare o dal caricabatterie.
2. Premere una volta il pulsante di riavvio per spegnere completamente la telecamera.
3. Tenere premuto il pulsante di accensione per 3 secondi per riavviare la telecamera.

FCC Statement

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

—Reorient or relocate the receiving antenna.

—Increase the separation between the equipment and receiver.

—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

—Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operatio
n is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications made without explicit approval from the responsible party in compliance may result in
the user being unauthorized to operate the device.

This device meets the FCC radiation exposure limits for uncontrolled environments. To ensure safe installation and operation, maintain a minimum distance of 20cm between the radiator and your body.

FCC ID: 2BC96NB-CMA02
