

USE & CARE INSTRUCTIONS

EASY TO FILL, EASY TO CLEAN

Wide top allows you to fill and clean with ease.

Other Squirrel Proofing Tips

- This feeder deters gray, not small red squirrels. To make it and other feeders resistant to red squirrels and other climbing critters, mount feeder on the Stokes Select® Bird Feeder Pole and use a Squirrel X Squirrel Baffle on the pole below the feeder.
- Place pole at least 15 feet away from any place a squirrel could jump from
- To help divert squirrels from bird feeders, use Stokes Select® Critter Snack Food placed away from bird feeders

Great Features of the Squirrel-Proof Cage Feeder

Mount feeder to top of Stokes Select® Bird Feeder Pole with built-in pole socket.

Rooftop design of portals sheds rain to keep seed dry.

Use Stokes Select® Squirrel Feeders & Squirrel X Accessories to Deter Squirrels from Bird Feeders

Instructions for Filling Feeder

To open feeder, slide rubber washer to top of feeder handle. Lift the lid off the feeder, sliding it up the handle. Lid may fit snug, exert pressure to lift it off.

Once cap is off, fill feeder with your favorite bird seed.

Close lid of feeder and slide rubber washer down so it fits tightly against lid.

This is a locking device to prevent lid from being lifted.
