

WHAT'S IN THE BAG – FOR DOGS

Here's a handy chart to help you calculate approximate portion sizes based on overall package weight. Please remember that all amounts are estimations. This **chart is also available for cats**.

NEED TO FIGURE OUT HOW MUCH FOOD YOU NEED FOR ONE MONTH?

To calculate the approximate amount of food you'd need in one month:

Find the **number of cups (or patties) in the bag** in the chart below. Then divide the number of cups in a bag by the **number of cups your dog will eat** daily, then **divide that by 30**.

Example:

If the chart indicates a bag has 68 cups, and your dog will eat 2 cups daily, then 68 cups divided by 2 equals 34 days of food. In this example, your dog will have enough food for a month.

WHAT'S IN THE BAG:

Dog

APPROX.
AMOUNT/BAG

BAG WEIGHT

	BAG WEIGHT	APPROX. AMOUNT/BAG
 FREEZE-DRIED PATTIES	5.5 oz	11 patties
	14 oz	28 patties
