

COMPACT

ROTARY TILLER

TRACTOR HP REQUIRED
25-50 HP

IMPLEMENT WIDTH
64", 76", & 89"

HITCH TYPES
CAT 1 & CAT 2
QUICK HITCH

The compact Rotary Tiller excels at working acres of dirt or creating large food plots. Our Tiller cultivates the land by stirring up soil for gardens, food plots, laying sod, and other tillage needs. Choose from multiple depth levels to mix up loose soil, or break up the toughest ground. The Tiller's self-sharpening tines are wide and made of high-quality steel to mix up the soil better. And if things turns rocky - this tiller is uniquely built tough at every key point. The rotary shaft is built tough with thick steel. The circular bearing flange that supports the shaft is strong, made of heavy-duty cast iron.
